Emissions Reduction Targets

Question

Does the company have corporate-level emissions reduction targets?

Rationale

Most industries are likely to be impacted by climate change, albeit to a varying degree. Consequently, they need to design strategies which are adapted to the size of the challenge for their industry. Whilst the majority of the companies focus on risks associated with the changing climate, some seek to identify and seize the business opportunities linked to these global challenges. Setting emission reduction targets enables companies to adopt a systematic and disciplined approach towards reducing their emissions. With this question, we aim to find out if a company has set absolute or relative corporate targets to reduce greenhouse gas emissions.

Performance Summary	
Question Level Company Performance	100
Question Weight	10
Year-on-Year Change	40
Industry Average Score	32
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

Absolute target: a target that describes a reduction in actual emissions in a future year when compared to a base year.

Intensity target: a target that describes a future reduction in emissions that have been normalized to a business metric when compared to normalized emissions in a base year.

Intensity measure: Grams CO2e or Metric tons CO2e per kilometer, per USD($) value-added, square meter, per unit revenue, per unit FTE employee, per unit hour worked, per unit of production, per unit of service provided etc.

Science-based targets: "Targets are considered 'science-based' if they are in line with what the latest climate science deems necessary to meet the goals of the Paris Agreement – limiting global warming to well-below 2°C above pre-industrial levels and pursuing efforts to limit warming to 1.5°C." Source: Science-based targets Initiative

Data Requirements

- We expect companies to set absolute or intensity emission targets. If your company has both absolute and intensity targets, please prioritize your absolute target.
- If you provide the intensity target in this question, please select the intensity measure used (metric).

Scopes covered by the target: Scopes covered by the company's emissions reduction target and reduction of emissions to be achieved in the target year compared to the base year.

- If you report a target which covers Scope 1+2 combined, please complete the first row and tick "Scope 1+2 combined". You can also add a separate Scope 3 target in the last row.
- If you report a target which covers Scope 1+3 combined, please complete the first row and tick "Scope 1+3 combined". You can also add a separate Scope 2 target.
- If you report a target which covers Scope 1+2+3 combined, please complete the first row, tick "Scope 1+2+3 combined" and leave the last 3 rows blank.
- If you report a target which covers Scope 1, 2 and 3 separately, please complete the Scope 1, Scope 2 and Scope 3 rows.
- If you report a target which only covers Scope 3, please complete the last row only.
- If you report both combined and individual targets for all 3 scopes, please only provide individual targets in the table.

Supporting evidence:

- The document(s) you attached will be used to verify your response.
- The supporting documents must be available in the public domain.
- Any response that cannot be verified in the attached document(s) will not be accepted

Industry-Specific Guidance:

Financial Institutions (BNK/FBN/INS)

- We expect short-term emission targets to focus on operational emissions.
- Category 15 Financed emissions targets should be accounted for under the Net-Zero Targets for Financed Emissions under the Decarbonization Strategy Criteria.

QUESTION LEVEL INPUT	COMPANY ANSWER
Intensity Metric Selection	Not answered
Target Type : Absolute and Intensity targets	Absolute Target
Combined Science Based - Is this target validated by the Science-based Targets Initiative?	No, the target is not science-based
Scope 1 Science Based - Is this target validated by the Science-based Targets Initiative?	Yes
Scope 2 Science Based - Is this target validated by the Science-based Targets Initiative?	Yes
Scope 3 Science Based - Is this target validated by the Science-based Targets Initiative?	Yes
Scope 1 target set for emission reduction	YES
Scope 2 target set for emission reduction	YES
Scope 3 target set for emission reduction	YES
Yes, we have a company-wide absolute emissions target and/or an emissions intensity target publicly available that covers Scope 1, Scope 2, and/or Scope 3 emissions. Please provide details in the table below.	Applicable
Scope covered by the target : Combined Selection	Not known
Target Timeframe : Combined Base Year (Fiscal Year)	2019
Target Timeframe : Combined Target Year (Fiscal Year)	2050
Target Timeframe : Scope 1 Base Year (Fiscal Year)	2019
Target Timeframe : Scope 2 Base Year (Fiscal Year)	2019
Target Timeframe : Scope 3 Base Year (Fiscal Year)	2019
Target Timeframe : Scope 1 Target Year (Fiscal Year)	2030
Target Timeframe : Scope 2 Target Year (Fiscal Year)	2025
Target Timeframe : Scope 3 Target Year (Fiscal Year)	2030
Baseline year emissions covered : Combined Base Year Emissions (met. ton. CO2e)	9,435,965.000
Baseline year emissions covered : Scope 1 Base Year Emissions (met. ton. CO2e)	1,082,002.000
Baseline year emissions covered : Scope 2 Base Year Emissions (met. ton. CO2e)	332,963.000
Baseline year emissions covered : Scope 3 Base Year Emissions (met. ton. CO2e)	8,021,000.000
% reduction from base year : Combined Reduction Target	100
% reduction from base year : Scope 1 Reduction Target	50
% reduction from base year : Scope 2 Reduction Target	100
% reduction from base year : Scope 3 Reduction Target	28
% of total base year emissions : CombinedEmissionsScope	100

Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

QUESTION LEVEL INPUT	COMPANY ANSWER
% of total base year emissions : scope 1 Emissions Scope	100
% of total base year emissions : Scope 2 Emissions Scope	100
% of total base year emissions : Scope 3 Emissions Scope	100

Questionnaire

Does your company have any corporate-level emissions reduction targets **publicly** available?

If your company also answers the question Net-Zero Commitment, please do not provide your Net-Zero target in this question, but provide details of your related near-term emissions reduction target.

1. (•) Yes, we have a company-wide absolute emissions target and/or an emissions intensity target publicly available that covers Scope 1, Scope 2, and/or Scope 3 emissions. Please provide details in the table below.

Target Type and Metric

1. (•) **Absolute targets**
2. ( ) **Intensity targets**

Intensity Metric: Please select

Scope covered by the target	Target Timeframe	Baseline year emissions covered and as a % of total base year emissions	% reduction target from base year	Is this target validated by the Science-based Targets initiative?
1. ( ) Scope 1 + 2 combined 2. ( ) Scope 1 + 2 + 3 combined 3. (•) Not known	Base Year: 2019 Target Year: 2050	Base year emissions: 9435965 Percentage of total base year emissions: 100	100	1. ( ) Yes 2. ( ) No, but we have publicly committed to seek validation to the target by the SBTi 3. ( ) No, but we consider the target to be science-based 4. (•) No, the target is not science-based
1. [x] Scope 1	Base Year: 2019 Target Year: 2030	Base year emissions: 1082002 Percentage of total base year emissions: 100	50	1. (•) Yes 2. ( ) No, but we have publicly committed to seek validation to the target by the SBTi 3. ( ) No, but we consider the target to be science-based 4. ( ) No, the target is not science-based
1. [x] Scope 2	Base Year: 2019 Target Year: 2025	Base year emissions: 332963 Percentage of total base year emissions: 100	100	1. (•) Yes 2. ( ) No, but we have publicly committed to seek validation to the target by the SBTi 3. ( ) No, but we consider the target to be science-based 4. ( ) No, the target is not science-based
1. [x] Scope 3	Base Year: 2019 Target Year: 2030	Base year emissions: 8021000 Percentage of total base year emissions: 100	28	1. (•) Yes 2. ( ) No, but we have publicly committed to seek validation to the target by the SBTi 3. ( ) No, but we consider the target to be science-based 4. ( ) No, the target is not science-based

2. ( ) No, we do not have any company-wide absolute emissions target or emissions intensity target publicly available.
3. ( ) Not applicable. Please provide explanations in the comment box below.
