Trend of Employee Wellbeing

Question

Does the company track the results of its employee survey?

Rationale

Employee engagement, satisfaction, and well-being surveys are crucial tools for evaluating employee conditions and developing policies to attract, retain and develop the best employees and identify areas for improvement. In this question, we determine whether companies conduct regular employee surveys and in how far metrics on Job satisfaction, Purpose, Happiness and Stress are addressed in the employee surveys.

The four aspects Job satisfaction, Purpose, Happiness and Stress have been recommended by the World Wellbeing Movement as evidence-informed employee wellbeing outcome measures developed by the University of Oxford's Wellbeing Research Centre. They capture the complementary dimensions of wellbeing at work as experienced by the employee and align with how statistical agencies across the OECD are measuring general wellbeing. Research indicates there is a strong link between employee wellbeing and business outcomes such as employee productivity, retention, recruitment, and firm performance.

Performance Summary	
Question Level Company Performance	35
Question Weight	10
Year-on-Year Change	0
Industry Average Score	24
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

Top level engagement or score: The top level based on a classification where for example "highly engaged" is 7-10 on a 10 point scale, or equivalent. While companies might conduct multiple surveys, in this question we ask for the top level engagement or score only on the core focus of the survey. Depending on the core focus of the survey, top level can refer to the highest category of either engagement, satisfaction, well-being, or top level of employee Net Promoter Score (eNPS).

% Of employee survey respondents: Refers to the percentage of FTE employees who responded to the survey. This should not be the percentage of employees invited to participate in the survey.

Target: Targets can be the precise, stated target for the year in which the survey was conducted, or if the target is long-term for a specific future year, it can be linearly extrapolated. For instance, if the company reported 70% of employees **were engaged or satisfied** in FY2020, and set a two-year target of reaching 80% by FY2022, the linearly extrapolated target for FY2021 would be 75% (e.g., 10% improvement divided by two years equals 5% per year).

Employee Engagement: definitions of employee engagement may vary, but the following are representative:

- **Gallup:** Those who are involved in, enthusiastic about, and committed to their work and workplace.
- **Utrecht Work Engagement Scale (UWES-9):** "A positive, fulfilling, work-related state of mind that is characterized by vigor, dedication, and absorption."
- **Grovo:** "A deep, personal, and empowered investment in work." Deep because the employee cares about the quality of their work. Personal because the work and its contribution to the success of the company matter to the employee. And empowered because "the employee is capable of delivering a quality that will reward their investment of time, talents, effort, and care."

Employee Satisfaction: Refers to external motivation. How happy employees feel about their job; specifically concerning external incentives such as employment benefits.

Employee Wellbeing: Gallup: Wellbeing refers to "all of the things that are important to each of us and how we experience our lives. Key wellbeing measures include how employees rate their current and expected future lives (life evaluation) and how strongly employees believe their organization cares about their wellbeing."

Employee Net Promoter Score (eNPS): Refers to the question "on a scale of 0 to 10, how likely would you be to recommend this company to a friend or colleague as a place to work?" Responses which fall in between 9-10 are considered promoters or a company's most positive, motivated, and satisfied people. Those who fall between 7-8 are passives or employees who are neutral, or generally content but not fully committed to the organization. Employees who answer between 0-6 are considered detractors or those who wouldn't recommend your company and are unhappy and disengaged to varying degrees.

Aspects addressed in employee surveys: The four aspects included in the question involve metrics related to the complementary dimensions of wellbeing at work as experienced by the employee. They align with how statistical agencies are measuring general wellbeing and how Indeed surveys workplace wellbeing.

- **Job satisfaction:** Refers to questions in the survey aiming at measuring evaluative wellbeing (e.g., "I feel completely satisfied with my work")
- **Purpose:** Refers to questions in the survey aiming at measuring eudemonic wellbeing (e.g "My work has a clear sense of purpose")
- **Happiness:** Refers to questions in the survey aiming at measuring positive affect (e.g., "I feel happy at work, most of the time"
- **Stress:** Refers to questions in the survey aiming at measuring negative affect (e.g., "I feel stressed at work, most of the time")

Data Requirements

- If your company only conducts an employee survey every two years, please duplicate the value of the previous year in the table and provide the target for the most recent year a survey was conducted
- For the employee metric aspects section of the question, companies can attach either private or public evidence, however only information that can be verified will be accepted.

Disclosure requirements for partially public question: Additional credit will be granted for relevant publicly available evidence covering the following aspect of this question:

- The results of the annual employee survey (i.e., the % of employees with top level of engagement, satisfaction, wellbeing, or employee net promoter score (NPS) figure for at least the most recent reported year).

Please note:

- If you have **25 or less FTEs** in your organization, then please mark the **entire criterion** as **"Not applicable"**.
- If you have **26-100 FTEs**, then also this questions will be marked as **"Not applicable"**.

Percentage of employee survey respondents (2023)	86

Questionnaire

Please indicate if your company conducts an employee survey.

1. (•)

Yes, we conduct an annual employee survey

Please indicate in the following table the percentage of employees that are for example **highly engaged, with highly positive experience or a high level of wellbeing as found through your company's scaled employee surveys**. Please select only the core focus of your survey as well as its coverage. Please note: If your company only conducts its primary employee survey every two years, please duplicate the value of the previous year in the table and provide the target for the most recent year the primary survey was conducted.

Core Focus	Unit	FY 2020	FY 2021	FY 2022	FY 2023	What was your target for FY 2023?
Employee Engagement	% of employees with top level of engagement, satisfaction, wellbeing, or employee net promoter score (eNPS)	Not answered	Not answered	92	88	90
Data coverage	% of employees who responded to the survey	Not answered	Not answered	83	86
