Question: Lost-Time Injury Frequency Rate (LTIFR) - Contractors
Include Modeled Scores : Yes

Lost-Time Injury Frequency Rate (LTIFR) - Contractors

Question

Does the company track the lost-time injury frequency rate (LTIFR) for its contractors?

Rationale

Poor occupational health and safety (OHS) performance has a direct negative impact on labor costs through lower productivity. Lower performance not only poses a threat to the company's reputation and staff morale but also results in increased operating costs in the form of fines and other contingent liabilities. We expect companies to keep a track of the lost time injuries of their contractors to restrict the occurrence of such events and ensure overall safety across the supply chain.

Performance Summary	
Question Level Company Performance	0
Question Weight	17
Year-on-Year Change	0
Industry Average Score	25
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

Lost-time injuries frequency rate (LTIFR): A lost-time injury is defined as any work-related injury that results in the company employee or third-party contractor employee not being able to return to work the next scheduled work day/shift.

LTIFR ONLY counts the lost time on the company's premises for contractors.

The LTIFR is the number of lost-time injuries per million hours worked, calculated using the formula:

LTIFR=(Number of lost-time injuries) / (Total hours worked in accounting period) x 1'000'000

Lost-Time Injury Rate (LTIR)

Any work-related injury that results in the company employee or third-party contractor employee not being able to return to work the next scheduled workday/shift.

The LTIR is the number of lost-time injuries per 200,000 hours worked, calculated using the formula:

LTIR=(Number of lost-time injuries) / (Total hours worked in accounting period) x 200'000

DART (Days Away/Restricted or Transfer Rate): A mathematical calculation that describes the number of recordable injuries and illnesses per 100 full-time employees that resulted in days away from work, restricted work activity and/or job transfer that a company has experienced in a fiscal year.

Dart rate formula: total number of DART incidents x 200,000 / number of employee labor hours worked in the fiscal year.

LOST WORKDAY RATE (LWD): A mathematical calculation that describes the number of lost workdays per 100 full-time employees in the last fiscal year.

LWD Rate formula: Total Number of Lost Days x 200,000 / Number of Employee Labor Hours Worked

A Lost Workday Incident takes into account the number of days of missed work, not days that involved restricted tasks. The day the illness or injury occurred is not counted as a lost workday, and the total number possible for lost days due to a single incident is capped at 180.

Contractor: Persons or organizations working onsite or offsite on behalf of an organization. A contractor can contract their own workers directly, or contract sub-contractors or independent contractors.

Data Requirements

If your company combines LTIFR for employees and contractors, then please answer "**Lost-Time Injuries Frequency Rate (LTIFR)** - **Employees**" combining the two figures, mark "**Lost-Time Injuries Frequency Rate (LTIFR)** - **Contractors**" as **"Not applicable"** and explain in the comment box.

Disclosure requirements for partially public question. Additional credit will be granted for relevant publicly available evidence covering the following aspect of this question:

- Contractor Lost-Time Injury Frequency Rate (LTIFR) for at least the most recent reported year.
- Contractor Days Away/Restricted or Transfer Rate (DART) for least the most recent reported year OR
- Contractor Lost Workday Rate (LWD) for least the most recent reported year.

Please note:

- If you have **25 or less FTEs** in your organization, then **please mark the question as "Not applicable".**
- If you have **26-100 FTEs**, then also this questions will be **marked as "Not applicable"**.

Data Consistency

If the occupational health & safety performance data reported in the questionnaire do not correspond to the publicly reported figures, the corresponding option should be marked and the discrepancy should be explained. This option should not be indicated if the information is not publicly reported at all.

Please note that we only expect your company to report **ONE** metric only. If your company reports both LTIFR and one of the alternative metrics, please use the LTIFR as this is the preferred metric.

If your company reports one metric for employees and another for contractors, this is acceptable.

Please note that Lost Time Injury Rate (200,000 hours) can be selected in the Standard Metric table as the figure can be multiplied by 5 to reach the calculation of LTIFR (1 million).

Standards & Frameworks

CSRD - S1-14 88e AR 89-AR 91, AR 95, S1-14 89

EDCI - Number of work related injuries

QUESTION LEVEL INPUT	COMPANY ANSWER
Lost-Time Injury Frequency Rate (LTIFR) - Contractors: Number of lost-time injuries per million work hours (2022)	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors: Number of lost-time injuries per million work hours (2023)	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors: Company's selected alternative metric	Not measured
Company reports the number of LWR or DART per 200,000 hours (2020)	Not measured
Company reports the number of LWR or DART per 200,000 hours (2021)	Not measured
Company reports the number of LWR or DART per 200,000 hours (2022)	Not measured
Company reports the number of LWR or DART per 200,000 hours (2023)	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors: Data coverage (as % of employees, operations or revenues)	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors - Data coverage (as a percentage of contractors, operations, or revenues) (2020)	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors - Data coverage (as a percentage of contractors, operations, or revenues) (2021)	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors - Data coverage (as a percentage of contractors, operations, or revenues) (2022)	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors - Data coverage (as a percentage of contractors, operations, or revenues) (2023)	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors - Data coverage of the alternative metric (as a percentage of employees, operations, or revenues) (2020)	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors - Data coverage of the alternative metric (as a percentage of employees, operations, or revenues) (2021)	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors - Data coverage of the alternative metric (as a percentage of employees, operations, or revenues) (2022)	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors - Data coverage of the alternative metric (as a percentage of employees, operations, or revenues) (2023)	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors - Company's data is publicly available	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors: The company's data has been third-party verified in the most recent financial year reported	Not measured
Lost-Time Injury Frequency Rate (LTIFR) - Contractors: The company's publicly reported data differs from the data provided in the questionnaire	Not measured
LTIFR-Contractors: The company has a temporary reduced coverage or target challenge due to corporate actions	Not measured

Questionnaire

Please provide your company's lost-time injury frequency rate for contractors (per one million hours worked). For each row in the table, it is mandatory that the values provided are in the same unit. If your company's LTIFR for contractors is equal to zero for one or more fiscal years, this data will only be accepted if evidence of third-party verification is provided.

If you only track LTIFR on a consolidated basis, without distinguishing between employees and contractors, please mark this question as "**Not applicable**" and use the LTIFR - Employees question to report the consolidated number.

1.

LTIFR	Unit	FY 2020	FY 2021	FY 2022	FY 2023
Contractors Please select	LTIFR (n/million hours worked) LTIR (n/200,000 hours worked)	Not measured	Not measured	Not measured	Not measured
Data coverage (as % of contractors, operations or revenues)	percentage of: Please select	Not measured	Not measured	Not measured	Not measured

PUBLIC REPORTING

1. ☐ Our data is publicly available. Please provide supporting evidence or web link.

THIRD-PARTY VERIFICATION

1. ☐ Our data has been third-party verified in the most recent financial year reported. Please provide supporting evidence.

DATA CONSISTENCY

1. ☐ We report publicly on this information, but the data in the table above differs from our publicly reported figures. Please provide an explanation in the comment box for this difference:
2. ☐ We have a temporary coverage reduction or target challenge due to corporate actions. Please briefly explain if a merger, acquisition, divestment, etc. has temporarily caused a reduction in your ability to report optimal coverage or caused your target to appear abnormal:

2.

Alternative Metric:

Please provide your company's Lost Workday Rate (LWR) or Days Away/Restricted or Transfer Rate (DART) for contractors (per 200,000 hours worked). For each row in the table, it is mandatory that the values provided are in the same unit. If your company's LWR or DART for contractors is equal to zero for one or more fiscal years, this data will only be accepted if evidence of third-party verification is provided.

Alternative Metric	Unit	FY 2020	FY 2021	FY 2022	FY 2023
Contractors Please select	n/200,000 hours worked	Not measured	Not measured	Not measured	Not measured
Data coverage (as % of employees, operations or revenues)	percentage of: Please select	Not measured	Not measured	Not measured	Not measured

PUBLIC REPORTING

1. ☐ Our data is publicly available. Please provide supporting evidence or web link.

THIRD-PARTY VERIFICATION

1. ☐ Our data has been third-party verified in the most recent financial year reported. Please provide supporting evidence.
