Question: Lost-Time Injury Frequency Rate (LTIFR) - Employees
Include Modeled Scores : Yes

Lost-Time Injury Frequency Rate (LTIFR) - Employees

Question

Does the company publicly report on the lost-time injury frequency rate (LTIFR) for its employees?

Rationale

Poor occupational health and safety (OHS) performance has a direct negative impact on labor costs through lower productivity. Lower performance not only poses a threat to a company's reputation and staff morale but also results in increased operating costs in the form of fines and other contingent liabilities. We expect companies to keep track of the lost time injuries of their employees and to prevent exacerbation of the injuries.

Performance Summary	
Question Level Company Performance	0
Question Weight	22
Year-on-Year Change	0
Industry Average Score	20
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

Lost-time injuries frequency rate (LTIFR): Any work-related injury that results in the company employee or third-party contractor employee not being able to return to work the next scheduled work day/shift.

The LTIFR is the number of lost-time injuries per million hours worked, calculated using the formula:

LTIFR=(Number of lost-time injuries) / (Total hours worked in accounting period) x 1'000'000

Lost-Time Injury Rate (LTIR)

Any work-related injury that results in the company employee or third-party contractor employee not being able to return to work the next scheduled workday/shift.

The LTIR is the number of lost-time injuries per 200,000 hours worked, calculated using the formula:

LTIR=(Number of lost-time injuries) / (Total hours worked in accounting period) x 200'000

DART (Days Away/Restricted or Transfer Rate): A mathematical calculation that describes the number of recordable injuries and illnesses per 100 full-time employees that resulted in days away from work, restricted work activity and/or job transfer that a company has experienced in a fiscal year.

Dart rate formula: total number of DART incidents x 200,000 / number of employee labor hours worked in the fiscal year.

LOST WORKDAY RATE (LWD): A mathematical calculation that describes the number of lost workdays per 100 full-time employees in the last fiscal year.

LWD Rate formula: Total Number of Lost Days x 200,000 / Number of Employee Labor Hours Worked

A Lost Workday Incident takes into account the number of days of missed work, not days that involved restricted tasks. The day the illness or injury occurred is not counted as a lost workday, and the total number possible for lost days due to a single incident is capped at 180.

Data Requirements

If your company combines LTIFR for employees and contractors, then please answer this question combining the two figures and mark the question "**Lost-Time Injuries Frequency Rate (LTIFR) - Contractors**" as **"Not applicable"**.

Disclosure requirements for public question: Publicly available evidence covering the following aspect of this question must be included:

- Employee Lost-Time Injury Frequency Rate (LTIFR) for at least the most recent reported year OR
- Employee Days Away/Restricted or Transfer Rate (DART) for least the most recent reported year OR
- Employee Lost Workday Rate (LWD) for least the most recent reported year.

Please note: if Lost-Time Injury Frequency Rate (LTIFR) is only tracked on a consolidated basis (employees and contractors combined) the combined rate for at least the most recent reported year should be provided.

Please note:

- If you have **25 or less FTEs** in your organization, then **please mark the question as "Not applicable"**.
- If you have **26-100 FTEs**, then also this questions will be **marked as "Not applicable"**.

Data Consistency

If the occupational health & safety performance data reported in the questionnaire do not correspond to the publicly reported figures, the corresponding option should be marked and the discrepancy should be explained. This option should not be indicated if the information is not publicly reported at all.

Please note that we only expect your company to report **ONE** metric only. If your company reports both LTIFR and one of the alternative metrics, please use the LTIFR as this is the preferred metric.

If your company reports one metric for employees and another for contractors, this is acceptable.

Please note that Lost Time Injury Rate (200,000 hours) can be selected in the Standard Metric table as the figure can be multiplied by 5 to reach the calculation of LTIFR (1 million).

Standards & Frameworks

CSRD - S1-14 88e

EDCI - Number of work related injuries

ESG Disclosure Standards (China) - S.1.3.3 Response to safety accidents and work-related injuries

GISD - Frequency of occupational injuries, Health and safety (%), Incident rate of occupational injuries

QUESTION LEVEL INPUT	COMPANY ANSWER
Company's Lost-Time Injuries Frequency Rate - Employees	Applicable
Lost-Time Injury Frequency Rate (LTIFR) - Employees - Company's selected LTIFR	LTIR
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Number of lost-time injuries per million work hours (2020)	Not answered
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Number of lost-time injuries per million work hours (2021)	Not answered
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Number of lost-time injuries per million work hours (2022)	1.960
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Number of lost-time injuries per million work hours (2023)	1.480
Lost-Time Injury Frequency Rate (LTIFR) - Employees - Company's selected alternative metric	Not answered
Number of LWR or DART per 200,000 hours (2020)	Not answered
Number of LWR or DART per 200,000 hours (2021)	Not answered
Number of LWR or DART per 200,000 hours (2022)	Not answered
Number of LWR or DART per 200,000 hours (2023)	Not answered
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Data coverage as a percentage of	Employees
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Data coverage (as % of employees, operations or revenues) (2020)	Not answered
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Data coverage (as % of employees, operations or revenues) (2021)	Not answered
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Data coverage (as % of employees, operations or revenues) (2022)	100
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Data coverage (as % of employees, operations or revenues) (2023)	100
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Data coverage (as % of employees, operations or revenues) for the alternative metric (2020)	Not answered
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Data coverage (as % of employees, operations or revenues) for the alternative metric (2021)	Not answered
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Data coverage (as % of employees, operations or revenues) for the alternative metric (2022)	Not answered
Lost-Time Injury Frequency Rate (LTIFR) - Employees: Data coverage (as % of employees, operations or revenues) for the alternative metric (2023)	Not answered
Lost-Time Injury Frequency Rate (LTIFR) - Employees: The company's data has been third-party verified in the most recent financial year reported	-
Lost-Time Injury Frequency Rate (LTIFR) - Employees: The company has a temporary coverage reduction or target challenge due to corporate actions	-
Company only tracks LTIFR on a consolidated basis	-
Data consistency: LTIFR Employees data reported in the questionnaire differs from publicly available data	-

Questionnaire

Does the company publicly report on lost-time injury frequency rate for employees (per one million hours worked)? For each row in the table, it is mandatory that the values provided are in the same unit. If the company's LTIFR for employees is equal to zero for one or more fiscal years, this data will only be accepted if evidence of third-party verification is provided.

If the company only tracks LTIFR on a consolidated basis, without distinguishing between employees and contractors, please use this question to report the consolidated number.

1. (●)

   Yes, the company publicly reports on lost-time injury frequency rate for employees. Please indicate where this information is available in **public reporting or corporate website.**

LTIFR	Unit	FY 2020	FY 2021	FY 2022	FY 2023
Employees LTIR	LTIFR (n/million hours worked) LTIR (n/200,000 hours worked)	Not answered	Not answered	1.96	1.48
Data coverage (as % of employees, operations or revenues)	percentage of: Employees	Not answered	Not answered	100	100

THIRD-PARTY VERIFICATION

1. ☐

   The data has been third-party verified in the most recent financial year reported and is available publicly.

DATA CONSISTENCY

1. ☐

   The company publicly reports on this information, but the data in the table above differs from the publicly reported figures. Please provide an explanation in the comment box for this difference:

2. ☐

   The company has a temporary coverage reduction or target challenge due to corporate actions. Please briefly explain if a merger, acquisition, divestment, etc. has temporarily caused a reduction in the ability to report optimal coverage or caused the target to appear abnormal:

3. ☐

   The company only tracks lost-time injury frequency rate (LTIFR) on a consolidated basis.

Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

Please provide the combined figures in the table above and mark "Not applicable" in the next question (Lost-Time Injuries Frequency Rate (LTIFR) - Contractors).

2.

Alternative Metric

Please provide the company's Lost Workday Rate (LWR) or Days Away/Restricted or Transfer Rate (DART) for employees (per 200,000 hours worked). For each row in the table, it is mandatory that the values provided are in the same unit. If the company's LWR or DART for employees is equal to zero for one or more fiscal years, this data will only be accepted if evidence of third-party verification is provided.

Alternative Metric	Unit	FY 2020	FY 2021	FY 2022	FY 2023
Employees Please select	n/200,000 hours worked	Not answered	Not answered	Not answered	Not answered
Data coverage (as % of employees, operations or revenues)	percentage of: Employees	Not answered	Not answered	Not answered	Not answered

THIRD-PARTY VERIFICATION

1. ☐

The data has been third-party verified in the most recent financial year reported and is available publicly.

DATA CONSISTENCY

1. ☐

The company publicly reports on this information, but the data in the table above differs from the publicly reported figures. Please provide an explanation in the comment box for this difference:

2. ☐

The company has a temporary coverage reduction or target challenge due to corporate actions. Please briefly explain if a merger, acquisition, divestment, etc. has temporarily caused a reduction in the ability to report optimal coverage or caused the target to appear abnormal:

3. ☐

The company only tracks DART or LWR on a consolidated basis.

Please provide the combined figures in the table above and mark "Not applicable" in the next question (Lost-Time Injuries Frequency Rate (LTIFR) - Contractors).

3.

No, the company does not publicly report on any of these metrics (LTIFR, DART or LWR) for its employees.

4.

Not applicable. Please provide explanations in the comment box below.
