TCFD Disclosure

Question

Does the company integrate the TCFD framework in the management of climate-related risks and opportunities?

Rationale

This question focuses on whether a company applies the framework of the Task Force on Climate-related Financial Disclosures (TCFD) in the management of climate-related risks and opportunities. Demand for climate-related disclosure from investors has increased significantly since the release of the TCFD's recommendations in 2017. In addition, public sector leaders have noted the importance of transparency on climate-related issues within financial markets. Climate-related risk is increasingly the subject of new reporting requirements, such as the EU's Non-financial Reporting Directive 2014/95/EU, which embeds regulatory guidance based on the TCFD's recommendations. Many national governments and public sector organizations formally support the TCFD and some have started to issue regulations that make TCFD disclosure mandatory.

Delays in applying the TCFD framework may not only result in missing the expectations of investors but in compliance costs.

Performance Summary	
Question Level Company Performance	100
Question Weight	3
Year-on-Year Change	0
Industry Average Score	56
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Questionnaire

Does the company apply the TCFD framework in the management of climate-related risks and opportunities and is it available publicly?

1. ●

   Yes, the company integrates the TCFD framework or is in the process of integrating it and publicly addressing the following requirements. Please indicate where this information is available in **public reporting or corporate website.**

   Governance

   1. ☑

      a) Describe the board's oversight of climate related risks and opportunities.
   2. ☑

      b) Describe management's role in assessing and managing climate-related risks and opportunities.

   Strategy

   1. ☑

      a) Describe the climate-related risks and opportunities the organization has identified over the short, medium, and long term.
   2. ☑

      b) Describe the impact of climate-related risks and opportunities on the organization's businesses, strategy, and financial planning.
   3. ☑

      c) Describe the resilience of the organization's strategy, taking into consideration different climate-related scenarios, including a 2°C or lower scenario.

   Risk Management

   1. ☑

      a) Describe the organization's processes for identifying and assessing climate-related risks.
   2. ☑

      b) Describe the organization's processes for managing climate-related risks.
   3. ☑

      c) Describe how processes for identifying, assessing, and managing climate-related risks are integrated into the organization's overall risk management.

   Metrics & Targets

   1. ☑

      a) Disclose the metrics used by the organization to assess climate-related risks and opportunities in line with its strategy and risk management process.
   2. ☑

      b) Disclose Scope 1, Scope 2, and if appropriate, Scope 3 greenhouse gas (GHG) emissions, and the related risks.
   3. ☑

      c) Describe the targets used by the organization to manage climate-related risks and opportunities and performance against targets.
2. ○

   The company publicly commits to integrating the TCFD framework but does not yet report on any of the requirements. Please indicate when you plan to disclose the requirements:

   Please select
3. ○

   No, the company does not apply the TCFD framework in its risk management. Please explain the reason.

   Not answered
4. ○

   Not applicable. Please provide explanations in the comment box below.
