**Question:** Non-Executive Chairperson/ Lead Director
**Include Modeled Scores :** Yes

**Non-Executive Chairperson/ Lead Director**

## Question

Is the board of directors/supervisory board headed by a non-executive and independent chairperson and/or an independent lead director?

## Rationale

International consensus favors the separation of the roles of chairperson and CEO. If the board of directors opts to appoint one person to fulfill both roles, it must build in the necessary checks and balances to avoid potential abuses of power. Companies headed by a joint chairperson/CEO are expected to explain their reasoning for this structure, to have appointed a "lead independent director" and to provide a statement about the lead director's responsibilities.

#### Key Definitions

**Independent lead director:** This role exists to provide leadership to the board in cases where the joint roles of chairperson and CEO may be in conflict. Fundamentally, the role exists to ensure that the board operates independently of management and that directors have independent leadership at the board level. If the company has chosen either of the two options indicating that it has an independent lead director, the name of this director should be provided in the comment box.

**Independent directors:** These are non-executive directors considered independent by meeting at least four of the nine criteria (including at least two of the three first criteria) listed below:

- The director must not have been employed by the company in an executive capacity within the last year.
- The director must not accept or have a "Family Member who accepts any payments from the company or any parent or subsidiary of the company in excess of $60,000 during the current fiscal year." other than those permitted by SEC Rule 4200 Definitions, including (i) payments arising solely from investments in the company's securities or (ii) payments under non-discretionary charitable contribution matching programs. Payments that do not meet these two criteria are disallowed.
- The director must not be a "Family Member of an individual who is ... employed by the company or by any parent or subsidiary of the company as an executive officer."
- The director must not be (and must not be affiliated with a company that is) an adviser or consultant to the company or a member of the company's senior management.
- The director must not be affiliated with a significant customer or supplier of the company.
- The director must have no personal services contract(s) with the company or be a member of the company's senior management.
- The director must not be affiliated with a not-for-profit entity that receives significant contributions from the company.
- The director must not have been a partner or employee of the company's outside auditor during the past year.
- The director must not have any other conflict of interest that the board itself determines to mean they cannot be considered independent.

#### Data Requirements

Provide information on board members that are currently (at the time the assessment is performed) in the board. This means that if the board member has resigned from the board (for example in March 2020) and the assessment in performed in May 2020, do not include them as part of the board.

Include board member who has announced her/his resignation but has not yet resigned (at the time the assessment is performed) as part of the board. She/he should not be included if she/he has already resigned at the time the assessment is performed.

A board nominee should not be included as a board member unless she/he has already been elected at the time of the assessment. (A nominee should only be included if she/he sits for re-election, not if she/he's a nominee for a first mandate).

#### Disclosure Requirements

**Listed and/or publicly owned companies** are required to provide links to public reports or corporate websites.

**Non-listed companies** are required to provide the following evidence, depending on the type of company:

- **Family-owned companies and Privately owned companies** are required to provide public reports, corporate websites, or internal documents.
- **Cooperatives** are required to provide public reports, corporate websites, or internal documents
- **State-owned companies** are required to report on their corporate governance in the public domain as their key stakeholder is the general public.

**Please note:** Answers in the form of 'Confidential additional comments' for any type of non-listed company will not be accepted.
