Climate-Related Management Incentives

Question

Does the company provide incentives for the management of climate change issues, including the attainment of targets?

Rationale

This question aims to capture how rewards are associated with the management of climate change issues, including the attainment of targets. This ensures that climate-related ambitions and goals are embedded throughout the company and that management is held accountable for the achievement of these goals.

Key Definitions

Incentives: Please note that incentives can be positive (i.e., giving access to something) or negative (i.e., preventing access to something). Examples of incentive types include:

- **Monetary:** A bonus or some form of financial remuneration.
- **Recognition (non-monetary):** Includes employee awards (e.g., employee of the year) or career progression schemes, but is not tied directly to any form of financial remuneration.
- **Other non-monetary rewards:** Includes increased holiday allowances, special assignment, etc.

Data Requirements

If several types of incentives are used in your company, please select the incentive that is most commonly employed and include the fact that your company also uses other incentives in the comment box.

Each employee group should only be selected once.

When you select an incentive for a certain employee group, it is not necessary for all employees in this group to be entitled to benefit from this incentive. For example, you can select the category "Facility/Unit/Site management" even if only one manager is entitled to the incentive.

Disclosure Requirements

Additional credit will be granted for relevant publicly available evidence for each of the following options:

- Person entitled to the benefit; and
- Type of incentive; and
- Incentivized KPI
