Emissions Reduction Targets

Question

Does the company have corporate-level emissions reduction targets?

Rationale

Most industries are likely to be impacted by climate change, albeit by varying degrees. Consequently, they need to design strategies that are adapted to the size of the challenge for their industry. While the majority of the companies focus on risks associated with changing climate, some seek to identify and seize the business opportunities linked to these global challenges. Setting emissions reduction targets enables companies to adopt a systematic and disciplined approach toward reducing their emissions. With this question, we aim to find out if a company has set absolute or relative corporate targets to reduce greenhouse gas emissions.

Performance Summary	
Question Level Company Performance	90
Question Weight	10
Year-on-Year Change	(10)
Industry Average Score	29
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

Absolute target: A target that describes a reduction in actual emissions in a future year compared with a base year.

Intensity target: A target that describes a future reduction in emissions that is normalized to a business metric compared with normalized emissions in a base year.

Intensity measure: Grams of carbon dioxide equivalent (CO2e) or metric tons of CO2e per kilometer, per US dollar value-added, per square meter, per unit revenue, per unit full-time equivalent (FTE) employee, per unit hour worked, per unit of production, or per unit of service provided, etc.

Science-based targets: According to the Science Based Targets initiative, targets are considered science-based if they are in line with what the latest climate science deems necessary to meet the goals of the Paris Agreement on climate change: limiting global warming to well below 2 degrees C above preindustrial levels and pursuing efforts to limit warming to 1.5 degrees C.

Data Requirements

- If the company also answers the question Net-Zero Commitment, please do not provide the net-zero target in this question, but provide details on interim emissions reduction targets.
- Companies are expected to set absolute or intensity emission targets. If the company has both absolute and intensity targets, please prioritize the absolute target.
- If the company provides the intensity target in this question, please select the intensity measure used (metric).

Scopes covered by the target: Scopes covered by the company's emissions reduction target and reduction of emissions to be achieved in the target year compared with the base year.

- If the company reports a target that covers Scope 1+2 combined, please complete the first row "Target 1" and tick Scopes 1 and 2. You can also add a separate Scope 3 target in the row "Target 2".
- If the company reports that covers Scope 1+2+3 combined, please complete the first row "Target 1", tick Scopes 1, 2 and 3 and leave the other two rows blank.
- If the company reports a target that covers Scope 1, 2 and 3 separately, please complete Target 1, Target 2 and Target 3 rows.
- If the company reports a target that only covers Scope 3, please complete the "Target 1" row only and tick Scope 3.

Industry-specific guidance:

Financial institutions (BNK/FBN/INS)

- We expect short-term emission targets to focus on operational emissions.
- Category 15 financed emissions targets should be accounted for in "Net-Zero Targets for Financed Emissions" under the "Decarbonization Strategy Criteria."

Oil and Gas

(OGR/OGX/PIP/COL)

- SBTi does not accept emission reduction targets from oil and gas companies. Therefore, for the part 'Is the target validated by Science-Based Targets initiative?', we cannot accept any option other than 'No, the target is not science-based'

OIE - SBTi validated target will be accepted if the company derives less than 50% of revenue from:

- sale, transmission and distribution of fossil fuels
- providing equipment or services to fossil fuel companies

Please see the SBTi website for further details under 'What is the SBTi's policy on fossil fuel companies?'

https://sciencebasedtargets.org/sectors/oil-and-gas#what-is-the-sb-tis-policy-on-fossil-fuel-companies

Disclosure Requirements

Supporting evidence:

- The document(s) you attach will be used to verify your response.
- The supporting documents must be available in the public domain.
- Any response that cannot be verified in the attached document(s) will not be accepted

Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

QUESTION LEVEL INPUT	COMPANY ANSWER
Company's target 1 covers Scope 3	-
The company has publicly available corporate-level emissions reduction targets	Applicable
Percentage reduction from base year in Target 1	50
Percentage reduction from base year in Target 2	28
Percentage reduction from base year in Target 3	Not answered
Coverage as Percentage of total base year emissions for Target 1	100
Coverage as Percentage of total base year emissions for Target 2	100
Coverage as Percentage of total base year emissions for Target 3	Not answered

Questionnaire

Does the company have corporate-level emissions reduction targets?

1. (●) Yes, the company has corporate-level emissions reduction targets. Please indicate where this information is available in **public reporting or corporate website.**

Target type and metric	Scope covered by the target	Target timeframe	Baseline year emissions covered and as a percentage of total base year emissions	Percentage of reduction target from base year	Is this target validated by the Science-based Targets Initiative?
Target 1 1. (●) Absolute target 2. ( ) Intensity target Please select or specify another intensity metric Not answered	1. [x] Scope 1 2. [ ] Scope 2 3. [ ] Scope 3	Base year: 2019 Target year: 2030	Base year emissions: 1224042 Percentage of total base year emissions: 100	50	1. (●) Yes 2. ( ) No, but the company has publicly committed to seek validation to the target by the SBTi 3. ( ) No, but the company considers the target to be science-based 4. ( ) No, the target is not science-based
Target 2 1. (●) Absolute target 2. ( ) Intensity target Please select or specify another intensity metric Not answered	1. [ ] Scope 1 2. [ ] Scope 2 3. [x] Scope 3	Base year: 2019 Target year: 2030	Base year emissions: 11423977 Percentage of total base year emissions: 100	28	1. (●) Yes 2. ( ) No, but the company has publicly committed to seek validation to the target by the SBTi 3. ( ) No, but the company considers the target to be science-based 4. ( ) No, the target is not science-based
Target 3 1. (●) Absolute target 2. ( ) Intensity target Please select or specify another intensity metric Not answered	1. [ ] Scope 1 2. [ ] Scope 2 3. [ ] Scope 3	Base year: Not answered Target year: Not answered	Base year emissions: Not answered Percentage of total base year emissions: Not answered	Not answered	1. ( ) Yes 2. ( ) No, but the company has publicly committed to seek validation to the target by the SBTi 3. ( ) No, but the company considers the target to be science-based 4. (●) No, the target is not science-based

2. ( ) No, the company does not publicly report on corporate-level emissions reduction targets.
3. ( ) The question is not applicable to the company.
