Environmental Management Systems Verification

Question

Does the company publicly report on whether its Environmental Management System (EMS) is certified, audited, or verified?

Rationale

A verified/audited environmental management system (EMS) reflects a company's commitment towards monitoring environmental data. Further, the verification process can facilitate improvements to a company's EMS, improving efficiency and coverage. Our question on audit verification focuses on identifying whether the company has implemented, verified and certified its EMS to ensure the credibility of its procedures and systems.

Performance Summary

Question Level Company Performance	20
Question Weight	40
Year-on-Year Change	0
Industry Average Score	19
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Data Requirements

Please note that the total coverage for all three alternatives should not exceed 100% - To avoid double-counting, for the parts of your operations with multiple certifications/types of verification, only mark one of the three options: indicating the coverage of international standards first, followed by third-party verification and then internal verification.

Coverage should be relative to global operations and not only a single subsidiary, region or site.

Please also note that verification only pertains to your EMS, not the verification of environmental data or reporting.

NOTE:

- We accept RC 14001 for marking - EMS verified through international standards
- We do not accept ISO 50001, LEED or ISO 14064 or any other certification of energy or GHG management or product specific verification/certification.

Disclosure Requirements

Supporting evidence:

- This question requires supporting evidence from the public domain. The information provided must be included in your public reporting (e.g., annual report, sustainability report, integrated report, company publications) or corporate website.
- Any response that cannot be verified in the attached public document(s) will not be accepted.

Data View
