Question: Water Risks Management of Suppliers
Include Modeled Scores : Yes

Water Risks Management of Suppliers

Question

Does the company collaborate with critical tier 1 suppliers located in water-stressed areas to minimize water risks?

Rationale

It is in the best interest of companies that their critical Tier 1 suppliers are aware of and manage water-related risks as an effective risk management measure. With this question, we assess the degree of co-operation between companies and tier 1 suppliers in managing various water-related risks.

Performance Summary	
Question Level Company Performance	80
Question Weight	12
Year-on-Year Change	30
Industry Average Score	27
Industry Highest Score	88

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

Critical suppliers are defined by us as suppliers whose goods, materials, services (including intellectual property (IP) and patents) have a significant impact on the competitive advantage, market success or survival of the company. Critical suppliers include high-volume suppliers, suppliers of critical components and non-substitutable suppliers.

Tier 1 suppliers refer to suppliers that directly supply goods, materials or services (including intellectual property (IP) and patents) to the company.

Disclosure Requirements

Supporting evidence:

- The document(s) you attached will be used to verify your response.
- The supporting documents do not need to be available in the public domain.
- If a question text field is available, a comprehensive answer in that field can be accepted instead of a supporting document.
- Any response that cannot be verified in the attached document(s) or via the information provided in the related question text field (if available) will not be accepted.

Disclosure requirements for partially public question:

Additional credit will be granted for relevant publicly available evidence covering the following aspect of this question:

- Risks related to the quantity and quality of water
- Risks related to regulatory changes or changes in pricing structures
- Risks related to stakeholder conflicts
