# Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

BMV:BIMBO A (MI KEY: 4276592; SPCIQ KEY: 877906; TCUID: 53231)

**Public**

**Year:** Methodology Year: 2021
**Question:** Dual Class Shares
**Include Modeled Scores :** Yes

**Dual Class Shares**

## Question

Please indicate the amount of shares your company has per voting category and where this information is available in your public reporting or corporate website. For additional information, please see the information button.

## Rationale

The traditional one-share, one-vote system has been designed to give equal treatment to all shareholders. Capital providers should get a say in how a company is run. Voting is an important tool to secure good corporate governance and ensures that asset owners are able to make the board accountable and ensure long-term value creation. In contrast, dual class shares give more voting rights to people or organizations that provided less capital to the company.

It is therefore important that all shareholders have equal voting rights in order to ensure long-term thinking and hold the board of directors accountable on their decisions.

| Performance Summary | |
|---|---|
| **Question Level Company Performance** | 100 |
| **Question Weight** | 5 |
| **Year-on-Year Change** | 0 |
| **Industry Average Score** | 96 |
| **Industry Highest Score** | 100 |

### Additional Question Guidance & Information Display

▼ Additional Question Guidance & Information Display

**Key Definitions**

**Shares:** In this question, we are specifically referring to shares outstanding.

**Dual-class stock:** Is the issuing of various types of shares by a single company. A dual-class stock structure can consist of stocks such as Class A and Class B shares, and where the different classes have distinct voting rights and dividend payments. Two share classes are typically issued: one share class is offered to the general public, and the other is offered to company founders, executives and family. The class offered to the general public has limited voting rights, while the class available to founders and executives has more voting power and often provides a majority control of the company." (Retrieved from http://www.investopedia.com/terms/d/dualclassstock.asp)

**Preferred shares:** A type of stock which differs from common shares, most often because it is a hybrid instrument with features of equity and debt. Preferred shares usually do not have voting rights as a result of this hybrid structure.

**No vote:** Common shares with no voting rights. Excludes preferred shares and treasury shares with no voting rights.

**One vote shares with restrictions:** The shares carry one vote. However, restrictions apply regarding the voting rights of the share. The holder is subject to restrictions such that they can only vote under certain circumstances or specific conditions, i.e. at special shareholder meetings, only elect a limited number of board members, etc.

**Data Requirements**

**Public disclosure requirements:** Amount of shares per voting category (e.g. amount of single voting shares, dual class shares, preferred shares..) or voting power corresponding to each selected voting category (votes per share x amount of share).

**No vote:** Preferred shares and treasury shares with no voting rights should not be included under the "no vote shares".
