Question: Supplier Risk Management Measures
Include Modeled Scores : Yes

Supplier Risk Management Measures

Question

Please indicate which measures your company has taken in order to manage sustainability risks amongst your critical suppliers (tier 1 and non-tier 1) and your high sustainability risk suppliers. Please indicate the scope and attach supporting evidence or specify where requested.

Rationale

Companies not only outsource production, services and business processes but responsibilities, risks and opportunities as well. On one hand, outsourcing generally tends to increase a company's flexibility, but on the other hand, supply chain risks might become less apparent, new dependencies may arise, and the identification, monitoring and management of risks and opportunities in the supply chain may become more difficult.

This question seeks to assess if companies have a systematic approach to monitoring sustainability risks in their supply chain.

Performance Summary

Question Level Company Performance	60
Question Weight	17
Year-on-Year Change	(28)
Industry Average Score	9
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

Critical suppliers: They are defined as suppliers whose goods, materials, services (including intellectual property (IP) / patents) have a significant impact on the competitive advantage, market success or survival of the company. Critical suppliers include high-volume suppliers, suppliers of critical components and non-substitutable suppliers.

Tier 1 suppliers: This refers to suppliers that directly supply goods, materials or services (including intellectual property (IP) / patents) to the company.

Non-tier 1 suppliers: This refers to suppliers that provide their products and services to the supplier at the next level in the chain (tier-2 suppliers and higher)

Data Requirements

Supporting evidence:

- The document(s) you attached will be used to verify the qualitative part of your response. If a question text field is available, a comprehensive answer in that field can be accepted instead of a supporting document. Any qualitative response that cannot be verified in the attached document(s) or via the information provided in the related question text field (if available) will not be accepted.
- Quantitative figures provided in the response do not need supporting evidence.You may still provide a reference using the reference clip. This could include examples of the underlying calculations or approaches to data aggregation used to compile the provided quantitative information.
- The supporting documents do not need to be available in the public domain.

Data View

QUESTION LEVEL INPUT	COMPANY ANSWER
Company's Supplier Risk Management Measures	Applicable
Percentage of critical suppliers (tier 1 and non-tier 1) assessed annually	100
Percentage of critical suppliers (tier 1 and non-tier 1) assessed at least once every 3 years	0
Percentage of high sustainability risk suppliers assessed annually	0
Percentage of high sustainability risk suppliers assessed at least once every 3 years	0
Percentage of suppliers with high sustainability risk with identified gaps and with corrective action plans	100
Percentage of high sustainability risk suppliers with identified gaps and with corrective action plans that have improved their ESG performance within 12 months of the plan's launch	90

Questionnaire

Please indicate which measures your company has taken in order to manage sustainability risks amongst your critical suppliers (tier 1 and non-tier 1) and your high sustainability risk suppliers. Please indicate the scope and attach supporting evidence or specify where requested.

1. ◉

   Our company measures sustainability risks in the supply chain on an ongoing basis

   Ongoing sustainability monitoring

   Please indicate the standard frequency of a more comprehensive assessment of your suppliers and attach supporting documents (for example a process describing the system that tracks assessments' frequency). By "more comprehensive," we mean an assessment including at least a company visit either by your company's own personnel or by external third parties, for instance sustainability agencies.

   Please note that the percentage of suppliers assessed at least once every three years should NOT include the companies assessed annually.

   Please also note that it is possible that there is some overlap between critical suppliers and suppliers with high sustainability risk.

Type of supplier	Percentage assessed annually	Percentage assessed at least once every 3 years	Total (should not exceed 100%)

Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

Critical suppliers (tier 1 and non-tier 1)	100	0	
Suppliers with high sustainability risk. **If you have not identified any suppliers with high sustainability risks, please ensure that "0" is marked in applicable fields the "Supply Chain Risk Exposure" question.**	0	0	

Corrective action plans for suppliers

Please attach a sample as supporting document and indicate the percentage of assessed or audited suppliers for which corrective action plans have been developed. Further, please indicate what percentage of these suppliers with a corrective action plan has improved their ESG performance since the action plan was launched.

1. ☐ A sample corrective action plan is attached.

Measure	Percentage
% of current suppliers with high sustainability risk (following the definition in the question "Risk Exposure") **where gaps have been identified** have corrective action plans. **If you have not identified any suppliers with high sustainability risks, please ensure that "0" is marked in applicable fields the "Supply Chain Risk Exposure" question.**	100
% of current **high sustainability risk suppliers with identified gaps** and with corrective action plans that have improved their ESG performance within 12 months of the plan's launch. **If you have not identified any suppliers with high sustainability risks, please ensure that "0" is marked in applicable fields the "Supply Chain Risk Exposure" question.**	90

2. ○ We do not have any such measures in place.
3. ○ Not applicable. Please provide explanations in the comment box below.
4. ○ Not known
