Supplier Risk Management Measures

Question

Please indicate which measures your company has taken in order to manage sustainability risks amongst your critical suppliers (tier 1 and non-tier 1) and your high sustainability risk suppliers. Please indicate the scope and attach supporting evidence or specify where requested.

Rationale

Companies not only outsource production, services and business processes but responsibilities, risks and opportunities as well. On one hand, outsourcing generally tends to increase a company's flexibility, but on the other hand, supply chain risks might become less apparent, new dependencies may arise, and the identification, monitoring and management of risks and opportunities in the supply chain may become more difficult.

This question seeks to assess if companies have a systematic approach to monitoring sustainability risks in their supply chain.

Performance Summary

Question Level Company Performance	88
Question Weight	17
Year-on-Year Change	13
Industry Average Score	10
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Key Definitions

Critical suppliers: They are defined as suppliers whose goods, materials, services (including intellectual property (IP) / patents) have a significant impact on the competitive advantage, market success or survival of the company. Critical suppliers include high-volume suppliers, suppliers of critical components and non-substitutable suppliers.

Tier 1 suppliers: This refers to suppliers that directly supply goods, materials or services (including intellectual property (IP) / patents) to the company.

Tier 2 and lower: They provide their products and services to the supplier at the next higher level in the chain (E.g. Tier-2 supplies to Tier-1)

References

GRI Standards 102-9, 414 & 308 are relevant for this question.

Questionnaire

Please indicate which measures your company has taken in order to manage sustainability risks amongst your critical suppliers (tier 1 and non-tier 1) and your high sustainability risk suppliers. Please indicate the scope and attach supporting evidence or specify where requested.

1. Our company measures sustainability risks in the supply chain on an ongoing basis

Ongoing sustainability monitoring

Please indicate the standard frequency of a more comprehensive assessment of your suppliers and attach supporting documents (for example a process describing the system that tracks assessments' frequency). By "more comprehensive," we mean an assessment including at least a company visit either by your company's own personnel or by external third parties, for instance sustainability agencies.

Please note that the percentage of suppliers assessed at least once every three years should NOT include the companies assessed annually.

Please also note that it is possible that there is some overlap between critical suppliers and suppliers with high sustainability risk.

Type of supplier	Percentage assessed annually	Percentage assessed at least once every 3 years	Total (should not exceed 100%)
Critical suppliers (tier 1 and non-tier 1)			
Suppliers with high sustainability risk. **If you have not identified any suppliers with high sustainability risks, please ensure that "0" is marked in applicable fields the "Risk Exposure" question.**			

Corrective action plans for suppliers

Please attach a sample as supporting document and indicate the percentage of assessed or audited suppliers for which corrective action plans have been developed. Further, please indicate what percentage of suppliers with a corrective action plan has improved their ESG performance since the action plan was launched.

Measure	Percentage
% of current suppliers with high sustainability risk (following the definition in the question "Risk Exposure") **where gaps have been identified** have corrective action plans. **If you have not identified any suppliers with high sustainability risks, please ensure that "0" is marked in applicable fields the "Risk Exposure" question.**	
% of current suppliers with corrective action plans that have improved their ESG performance within 12 months of the plan's launch. **If you have not identified any suppliers with high sustainability risks, please ensure that "0" is marked in applicable fields the "Risk Exposure" question.**	

2.

We do not have any such measures in place.

3. Not applicable. Please provide explanations in the comment box below.

4. Not known
