Corporate Citizenship Strategy

Question

Does your company have a group-wide strategy that provides guidance to your corporate citizenship/philanthropic activities? Please indicate how this strategy aligns with your overall corporate strategy and the 17 UN Sustainable Development Goals.

Rationale

In order to be a catalyst for development, **corporate philanthropy** programs must be managed well. Creating value for the beneficiaries of these programs and shareholders alike requires companies to have a clear direction and focus guiding their philanthropic activities. We aim to find out whether a company has a group-wide corporate citizenship/philanthropy strategy in place, its main priorities, and if these priorities are aligned with the UN Sustainable Development Goals and the company's business drivers. Programs and initiatives that are aligned with the company's business drivers will allow the company to leverage its strengths, its brand and its employees to have the maximum impact on beneficiaries.

Creating value for beneficiaries and shareholders alike requires companies to have the ability to measure the effectiveness of their philanthropic activities from a cost/benefit perspective. Companies should have management processes in place to measure the impact of its activities and thus be able to use cost-benefit analysis to guide future spending decisions. The existence of group-wide KPIs to measure the effectiveness of philanthropic activities acts as an indicator of robust management processes.
