Human Rights Due Diligence Process

Question

Does the company have a company-wide human rights due diligence process?

Rationale

The purpose of this question is to assess whether your company has a due diligence process to proactively and systematically identify potential issues and where they could occur. Here we ask how risks are identified and periodically reviewed. The outcomes of conducting the analysis should be provided in the following "Human Rights -Assessment" question. A passive approach such as a whistle blowing or confidential reporting system is not sufficient for this question.
