Fatalities

Question

Does the company track its work-related fatalities for employees and contractors?

Rationale

Keeping track of work-related injuries and fatalities should cover a company's entire operations, covering both internal employees and external contractors. This is crucial for ensuring that legal requirements are met, that problematic and/or dangerous operations can be identified, and that safety measures can be improved.

Performance Summary	
Question Level Company Performance	50
Question Weight	48
Year-on-Year Change	0
Industry Average Score	22
Industry Highest Score	100

Key Definitions

Work-related fatalities: The death of a worker arising from an occupational disease or injury sustained or contracted while performing work that is controlled by the organization or that is being performed in workplaces that the organization controls.

Contractor: Persons or organizations working onsite or offsite on behalf of and organization. A contractor can contract their own workers directly, or contract sub-contractors or independent contractors.
