Question: Lost-Time Injury Frequency Rate (LTIFR) - Contractors
Include Modeled Scores : Yes

Lost-Time Injury Frequency Rate (LTIFR) - Contractors

Question

Does the company track the lost-time injury frequency rate (LTIFR) for its contractors?

Rationale

Poor occupational health and safety (OHS) performance has a direct negative impact on labor costs through lower productivity. Lower performance not only poses a threat to the company's reputation and staff morale but also results in increased operating costs in the form of fines and other contingent liabilities. We expect companies to keep a track of the lost time injuries of its contractors to restrict the occurrence of such events and ensure overall safety across the supply chain.

Performance Summary	
Question Level Company Performance	0
Question Weight	11
Year-on-Year Change	0
Industry Average Score	18
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Key Definitions

Lost-time injuries frequency rate (LTIFR): A lost time injury is defined as any work-related injury that results in the company employee or third-party contractor employee not being able to return to work the next scheduled work day/shift.

LTIFR ONLY counts the lost time on the company's premises for contractors.

The LTIFR is the number of lost-time injuries per million hours worked, calculated using the formula:

LTIFR=(Number of lost-time injuries) / (Total hours worked in accounting period) x 1'000'000

Contractor: Persons or organizations working onsite or offsite on behalf of and organization. A contractor can contract their own workers directly, or contract sub-contractors or independent contractors.

Data Requirements

If your company combines LTIFR for employees and contractors, then please answer "**Lost-Time Injuries Frequency Rate (LTIFR) - Employees**" combining the two figures, mark "**Lost-Time Injuries Frequency Rate (LTIFR) - Contractors**" as "**Not Applicable**" and explain in the comment box.

Disclosure requirements for partially public question. Additional credit will be granted for relevant publicly available evidence covering the following aspect of this question:

- Contractor Lost-Time Injury Frequency Rate (LTIFR) for at least the most recent reported year.

Data consistency

• If the occupational health & safety performance data reported in the questionnaire do not correspond to the publicly reported figures, the corresponding option should be marked and the discrepancy should be explained. This option should not be indicated if the information is not publicly reported at all.

No information was found in the public domain.

Questionnaire

Please provide your company's lost-time injury frequency rate for contractors (per one million hours worked). For each row in the table, it is mandatory that the values provided are in the same unit. If your company's LTIFR for contractors is equal to zero for one or more fiscal years, this data will only be accepted if evidence of third-party verification is provided.

If you only track LTIFR on a consolidated basis, without distinguishing between employees and contractors, please mark this question as "**Not applicable"** and use the LTIFR - Employees question to report the consolidated number.

PUBLIC REPORTING

1. ☐ Our data is publicly available. Please provide supporting evidence or web link.

THIRD-PARTY VERIFICATION

1. ☐ Our data has been third-party verified in the most recent financial year reported. Please provide supporting evidence.

DATA CONSISTENCY

1. ☐

Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

We report publically on this information, but the data in the table above differs from our publicly reported figures. Please provide an explanation in the comment box for this difference:

2. ☐ We have a temporary coverage reduction or target challenge due to corporate actions. Please briefly explain if a merger, acquisition, divestment, etc. has temporarily caused a reduction in your ability to report optimal coverage or caused your target to appear abnormal:

2. ○ We do not track lost-time injury frequency rate (LTIFR) for contractors.

3. ○ Not applicable. Please provide explanations in the comment box below.

4. ○ Not known
