Question: Lost-Time Injury Frequency Rate (LTIFR) - Employees
Include Modeled Scores : Yes

Lost-Time Injury Frequency Rate (LTIFR) - Employees

Question

Does the company publicly report on the lost-time injury frequency rate (LTIFR) for its employees?

Rationale

Poor occupational health and safety (OHS) performance has a direct negative impact on labor costs through lower productivity. Lower performance not only poses a threat to a company's reputation and staff morale but also results in increased operating costs in the form of fines and other contingent liabilities. We expect companies to keep track of the lost time injuries of its employees and to prevent injuries from further aggravation.

Performance Summary	
Question Level Company Performance	0
Question Weight	11
Year-on-Year Change	0
Industry Average Score	22
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Key Definitions

Lost-time injuries frequency rate (LTIFR): Any work-related injury that results in the company employee or third-party contractor employee not being able to return to work the next scheduled work day/shift.

The LTIFR is the number of lost-time injuries per million hours worked, calculated using the formula:

LTIFR=(Number of lost-time injuries) / (Total hours worked in accounting period) x 1'000'000

Data Requirements

If your company combines LTIFR for employees and contractors, then please answer this question combining the two figures and mark the question "**Lost-Time Injuries Frequency Rate (LTIFR) - Contractors**" as "**Not Applicable**".

Disclosure requirements for partially public question. Additional credit will be granted for relevant publicly available evidence covering the following aspect of this question:

- Employee Lost-Time Injury Frequency Rate (LTIFR) for at least the most recent reported year.

Please note: if Lost-Time Injury Frequency Rate (LTIFR) is only tracked a consolidated basis (employees and contractors combined) the combined rate for at least the most recent reported year should be provided.

Data consistency

• If the occupational health & safety performance data reported in the questionnaire do not correspond to the publicly reported figures, the corresponding option should be marked and the discrepancy should be explained. This option should not be indicated if the information is not publicly reported at all.

References

GRI Standard 403-9 is relevant for this question.

No information was found in the public domain.

Questionnaire

Please provide your company's lost-time injury frequency rate for employees (per one million hours worked). For each row in the table, it is mandatory that the values provided are in the same unit. If your company's LTIFR for employees is equal to zero for one or more fiscal years, this data will only be accepted if evidence of third-party verification is provided.

If you only track LTIFR on a consolidated basis, without distinguishing between employees and contractors, please use this question to report the consolidated number.

1.

LTIFR	Unit	FY 2016	FY 2017	FY 2018	FY 2019
Employees	n/million hours worked				
Data coverage (as % of employees, operations or revenues)	percentage of: Please select				

PUBLIC REPORTING

1. ☐ Our data is publicly available. Please provide supporting evidence or web link.

THIRD-PARTY VERIFICATION

Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

1. ☐ Our data has been third-party verified in the most recent financial year reported. Please provide supporting evidence.

DATA CONSISTENCY

1. ☐ We report publically on this information, but the data in the table above differs from our publicly reported figures. Please provide an explanation in the comment box for this difference:
2. ☐ We have a temporary coverage reduction or target challenge due to corporate actions. Please briefly explain if a merger, acquisition, divestment, etc. has temporarily caused a reduction in your ability to report optimal coverage or caused your target to appear abnormal:
3. ☐ We only track lost-time injury frequency rate (LTIFR) on a consolidated basis.

   Please provide the combined figures in the table above and mark "Not Applicable" in the next question (Lost-Time Injuries Frequency Rate (LTIFR) - Contractors).

2. ○ We do not track lost-time injury frequency rate (LTIFR) for employees.
3. ○ Not applicable. Please provide explanations in the comment box below.
4. ○ Not known
