MANAGEMENT INFORMATION CIRCULAR

VOTING INFORMATION

SOLICITATION OF PROXIES

This Management Information Circular is furnished in connection with the solicitation by management of Canada Bread Company, Limited ("Canada Bread" or the "Corporation") of proxies to be used at the Annual Meeting of the Shareholders of the Corporation (the "Meeting") to be held at the Albany Club, 91 King Street East, Toronto, Ontario on Wednesday, May 6, 2009 at 2:30 p.m. for the purposes set forth in the attached Notice of the Meeting. The costs of such solicitation will be borne by the Corporation. It is planned that the solicitation will be primarily by mail but proxies may also be solicited by telephone, in writing, by email, by fax, by other electronic means or in person by employees of the Corporation or by agents of the Corporation at a nominal and customary cost.

APPOINTMENT AND REVOCATION OF PROXIES

The persons named in the enclosed form of proxy are directors of the Corporation. **A shareholder desiring to appoint some other person or company, who need not be a shareholder of the Corporation, to represent the shareholder at the Meeting may do so either** by inserting such person's name in the blank space provided in the form of proxy or by completing another proper form of proxy and, in either case, delivering the completed proxy to the Secretary of the Corporation, c/o Computershare Investor Services Inc., 100 University Avenue, 9th Floor, Toronto, Ontario M5J 2Y1, for receipt on or before 4:30 p.m. on the last business day preceding the day of the Meeting or any adjournment thereof at which the proxy is to be used, or delivering it to the Chairman of the Meeting on the day of the Meeting or any adjournment thereof prior to the time of voting. A proxy should be executed by the shareholder or his attorney duly authorized in writing or, if the shareholder is a corporation, by an officer or attorney thereof duly authorized.

In addition to any other manner permitted by law, a proxy may be revoked before it is exercised by depositing an instrument in writing executed in the same manner as a proxy with the Secretary of the Corporation at the address shown above at any time up to and including the last business day preceding the day of the Meeting or any adjournment thereof at which the proxy is to be used or with the Chairman of the Meeting on the day of such Meeting or any adjournment thereof and upon either of such deposits the proxy is revoked.

VOTING OF PROXIES

A proxy in the form enclosed with the Notice of Meeting confers discretionary authority with respect to amendments or variations to the matters identified in the Notice of Meeting or other matters that may properly come before the Meeting. Management of the Corporation is not aware of any amendments, variations or other matters that are to be presented for action at the Meeting.

Shares represented by proxies properly executed in favour of the persons whose names are printed therein will be voted for or against or withheld from voting in accordance with the choices specified in the executed proxy on any ballot that may be called for but, if no choice is specified, such shares will be voted:

(i) FOR the election as directors of the Corporation of each of the persons listed as nominees under the heading "Election of Directors" below as directors;

(ii) FOR the appointment of KPMG LLP, Chartered Accountants, as auditors of the Corporation and authorizing the directors to fix their remuneration; and

(iii) FOR or AGAINST such actions as the nominee thinks fit with respect to any other matter that may properly come before the Meeting, including any amendments or variations in the matters identified in the Notice of Meeting.

VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

As at March 10, 2009, the Corporation had 25,416,812 voting common shares ("Common Shares") outstanding. Each Common Share carries the right to one vote at the Meeting. To the knowledge of the directors and officers of the Corporation, the only person who beneficially owns directly or indirectly or exercises control or direction over more than ten percent (10%) of the votes attaching to the Common Shares is Maple Leaf Foods Inc. ("Maple Leaf Foods", "Maple Leaf" or "MLF") which holds directly or indirectly 22,818,515 Common Shares representing approximately 89.8% of the issued and outstanding Common Shares. The registered office of Maple Leaf Foods is Suite 1500, 30 St. Clair Avenue West, Toronto, Ontario M4V 3A2.

The directors have fixed the close of business on April 1, 2009 as the record date for the purposes of determining shareholders entitled to receive notice of and to vote at the Meeting. Accordingly, only persons who are holders of Common Shares of record at the close of business on April 1, 2009, or persons who are transferees of Common Shares acquired after April 1, 2009 and who produce properly endorsed certificates for such Common Shares or otherwise establish ownership thereof and demand, not later than ten (10) days before the Meeting that the Secretary of the Corporation include their names in the list of shareholders, are entitled to vote at the Meeting.

NON-REGISTERED SHAREHOLDERS/BENEFICIAL OWNERS

Most shareholders are "beneficial owners'' who are non-registered shareholders. The Common Shares of the Corporation held by them are registered in the name of an intermediary, such as a securities broker, financial institution, trustee, custodian or other nominee who holds the shares on their behalf, or in the name of a clearing agency in which the intermediary is a participant (such as CDS Clearing and Depository Services Inc.). Intermediaries have obligations to forward meeting materials to the non-registered holders, unless otherwise instructed by the holder (and as required by regulation in some cases, despite such instructions).

These security holder materials are being sent to both registered and non-registered shareholders of the Corporation. If you are a non-registered shareholder and these materials were sent directly to you, your name and address and information about your holdings of securities have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding shares on your behalf.

By choosing to send these materials to you directly, Canada Bread Company, Limited (and not the intermediary holding shares on your behalf) has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions. Please return your voting instructions as specified in the request for voting instructions. Non-registered holders should follow the directions of their intermediaries with respect to the procedures to be followed for voting. Generally, intermediaries will provide non-registered holders with either: (a) a voting instruction form for completion and execution by the non-registered holder, or enabling voting by alternate means such as telephone or Internet, or (b) a proxy form, executed by the intermediary and restricted to the number of shares owned by the non-registered holder, but otherwise uncompleted. These procedures are designed to permit the non-registered holders to direct the voting of the Common Shares of the Corporation which they beneficially own.

VOTING AT THE MEETING BY BENEFICIAL OWNERS

Only registered shareholders or their duly appointed proxyholders are permitted to vote in person at the Meeting. If a non-registered holder wishes to attend and vote in person at the Meeting, they must insert their own name in the space provided for the appointment of a proxyholder on the voting instruction form or proxy form provided by the intermediary and carefully follow the intermediary's instructions for return of the executed form or other method of response.

The table below sets out the names of the persons proposed for election as directors of the Corporation to serve until the next Annual Meeting of the Shareholders of the Corporation or until their successors are duly elected or appointed, unless any such person is not available to act as a director, in which event a substitute may be nominated. **The persons named in the enclosed form of proxy (unless otherwise instructed) intend to vote FOR the election of the nominees whose names are set forth below.**

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Philosophy

In 2006, the Chief Executive Officer ("CEO") assumed the additional role as Chief Operating Officer, Food Group, Maple Leaf Foods Inc. and the Chief Financial Officer ("CFO") is also CFO of Maple Leaf Foods Inc. Compensation decisions regarding the CEO and CFO are made by the Board and the Human Resources and Compensation Committee of Maple Leaf Foods Inc. and then reviewed with the Governance Committee of Canada Bread Company, Limited. The CEO and CFO's compensation is borne partially by Canada Bread Company, Limited and partially by Maple Leaf Foods Inc. through a shared services agreement. In all cases, the compensation systems and philosophy for the two companies are coordinated and allow for the free movement of executives and staff between them.

The Corporation has four main components to its compensation for senior executives: base salary, annual bonus, participation in equity-based plans, and benefits in kind. The first three of these components have as their objectives to attract, motivate and retain the Named Executive Officers ("NEOs").

The Corporation's philosophy is to provide median fixed compensation (base salary), and above median (up to the 75th percentile) salaries for sustained excellent performance. Similarly, the Corporation offers median variable or at-risk compensation linked to performance (bonuses). Superior performance will lead to above-market bonuses. A similar philosophy applies to long-term incentives. Regarding benefits and perquisites, the Corporation's philosophy is to reward employees with competitive base pay plus a significant amount of variable compensation, based on performance. As such, other incentives that cannot be converted to variable compensation are minimized. For example, while the Corporation provides the option of a company car or a car allowance, the value of the car is relatively low, but the Corporation's compensation packages in total, including this benefit, are designed to be competitive and attract executives who support the philosophy of performance-driven compensation.

The Corporation has adopted a comprehensive and rigorous performance evaluation methodology for all salaried employees, upon which all compensation matters are based. The Corporation's compensation philosophy is to provide competitive compensation which targets the competitive median and above for base salary and incentive levels for its senior executives while recognizing and rewarding top performers above the competitive median through variable or at-risk compensation which reflects the performance / sustained contribution of each executive.

Compensation Elements

The Corporation's executive compensation program is comprised of fixed and variable components. The variable components include equity and non-equity incentive plans. Each compensation component has a different function, but all elements work in concert to maximize company and individual performance by establishing specific, competitive operational and financial goals and providing financial incentives to employees based on their level of achievement of these goals.

The compensation program consists of the following components:

Base Salary – Base salary and annual adjustments are based on an assessment of the individual executive's responsibility, experience, contribution and assessed performance and the financial performance of the Corporation as well as salary levels for other companies in a benchmark. The annual adjustment date is the start of the pay period in which July 1 occurs. For the CEO, base salary is set by taking into account salary levels of US companies in the consumer packaged goods industry. With respect to the CFO, base salary is set by taking into account salary levels of Canadian companies of a similar size (75% weighting) and several US companies in the consumer packaged goods industry (25% weighting).

For other Canadian NEOs, base salary is set by taking into account salary levels reported for companies in the 2007 Canadian Mercer Benchmark Data Base with revenue between $3.5 billion and $14 billion that have a position similar to the NEOs (75% weighting) and salary levels reported for companies in the 2007 US Mercer Benchmark Data Base with revenue between $3.5 billion and $14 billion that have a position similar to the NEOs (25% weighting).

For the UK based NEO, the benchmark used was the Monks (a division of PricewaterhouseCoopers) UK salary database for managing directors of consumer manufacturing and service operating divisions with revenue of £50 million, £100 million and £150 million.

Annual Incentive Plan – The Corporation's annual incentive plan is known as Rewards for Excellence ("RFE"). RFE aims to enhance the link between pay and performance by:

- Aligning the financial and operational interests and motivations of the Corporation's management team and employees with the annual financial returns of the Corporation;
- Motivating management to work towards common annual performance objectives while acknowledging and rewarding individual goal achievement;
- Providing total cash compensation that is greater than the median of the Market Peer Group in cases where superior financial performance in excess of target objectives is attained; and
- Providing total cash compensation that is at or below the market median in cases where performance objectives are not attained.

Under the plan, one portion of an executive's bonus is determined by team performance against earnings before tax ("EBT") targets and another portion by the achievement of personal objectives. Participation levels for the bonus program are determined by market competitiveness. The table below outlines the components of the plan for the NEOs.

Prior to 2008, the weight assigned to personal objectives for the CEO and the CFO was 10%. In the case of the CEO, the personal objectives included earnings performance for the Foods Group, Maple Leaf Foods of which he was the COO. In 2008, the weight assigned to personal objectives was increased to 20% to align with peer group companies. Furthermore, earnings performance for the Foods Group was excluded from his personal objectives. The revision was made effective January 1, 2008.

Executive	Payout as % of Salary			Team Performance		Personal Objectives	
	Target	Minimum[1]	Maximum	Measure[3]	%	Measure	%
CEO & CFO	80%	35%	125%	EBT for MLF as a whole	80%	[2]	20%
Other NEOs	60%	20%	95%	EBT for Business Unit	75%	[2]	25%

Notes:

(1) Below the minimum performance level, no bonus is payable. At the minimum level, the amount shown is payable.

(2) Personal objectives are set based on the executive's area of responsibility such as a goal to launch new products, or open a new plant or a new line. The objectives are established at the start of the year and are approved by the Board.

(3) Earnings before tax excluding unusual items. Mr. Lan is CEO of the Corporation as well as Chief Operating Officer, Food Group, Maple Leaf Foods Inc. Mr. Vels, the CFO of the Corporation, is also CFO of Maple Leaf Foods Inc. Their compensation is paid by Maple Leaf Foods with a portion borne by the Corporation through a shared services agreement. For both executives, the team portion of the RFE bonus is calculated on the earnings for Maple Leaf Foods as a whole, including Canada Bread.

The following table illustrates the bonus payout as a percentage of base salary at the minimum, target and maximum performance levels.

Annual Incentive Range and Components

		Team Performance Component[1]			Personal Performance Component[1]		
Performance Level	Target Bonus	Minimum Performance 85%/75%[2]	Target Performance 100%	Maximum Performance 115%/125%[2]	Minimum Performance 75%	Target Performance 100%	Maximum Performance 125%

All Other NEOs	60%	18.75%	45%	71.25%	6.25%	15%	23.75%

Notes:

(1) For team performance below the minimum, no bonus is payable and at performance above the maximum, the maximum is payable.

(2) For the CEO and CFO the minimum for team performance is 85% of the target and the maximum is 115% of the target. For other business unit presidents, minimum team performance of 75% is required for a bonus payment and 125% for a maximum payment.

Ménard, R.R.	104.6[2]	182,378	5	119.3	79,623	262,001
Maycock, P.G.	83.0[2][3]	97,466	8	100.0[3]	53,848	151,313

Notes:

(1) For both Mr. Lan and Mr. Vels, the team portion of the RFE bonus is calculated on the earnings for Maple Leaf Foods as a whole including the results of Canada Bread.

(2) The targets are calibrated so that they can be achieved with strong effort by the unit and no unusual circumstances. A maximum payout, while possible, is not likely to occur frequently. Over time, the average score is expected to be 100%.

(3) The UK operations suffered an oven fire at the start of the year that had a large impact on earnings. Earning include receipts under the Company's business interruption insurance. A personal objective regarding sales on products baked in the affected oven was scored at the target of 100% as the inability to achieve the target was due to the oven fire and was beyond the executive's control.

Equity Incentive Compensation – Senior employees of the Corporation are eligible to participate in the Maple Leaf Foods share compensation arrangements and awards have been granted to executives from time to time, based on recommendations by senior management. Participation in the executive equity incentive program is designed to:

- Recognize and reward the impact of longer-term strategic actions undertaken by management;
- Align the interests of the Corporation's key employees and its shareholders;
- Focus management on developing and successfully implementing the continuing growth strategy of the Corporation;
- Foster the retention of key management personnel; and,
- Attract talented individuals to the Corporation.

In 2006, the Maple Leaf Foods restricted share unit ("RSU") plan was revised. Under the revised plan, on maturity vested RSUs are distributed in the form of shares purchased by a trust on the Toronto Stock Exchange ("TSX"). The maturity period under the new structure is limited to three years. The performance vesting formula (based on the Maple Leaf Foods' total shareholder return versus the S&P Food Index) has remained in place with some modifications. For each RSU granted, one share is awarded on maturity if Maple Leaf Foods' performance equals the S&P Food Index. (The S&P Food Index, while not a published index, is maintained by Standard & Poor's and consists of the food company stocks, approximately 30, that are in the S&P 500 Index, the S&P Midcap 400, and the S&P Smallcap 600). At 75% performance or less, one-half share vests and is awarded for each RSU held. At 125% performance, the maximum, one and a half shares, vest and are awarded for each RSU held.

PERFORMANCE [1]	PERCENT VESTING
75% or below	50%
100%	100% [2]
125% or above	150% [2]

Notes:

(1) Performance means Maple Leaf Foods' total shareholder return expressed as a percentage of the S&P Food Index total shareholder return for the same period.

(2) Vesting is prorated if performance is between 75% and 100%, or 100% and 125%.

Of the minimum 50% number of RSUs that will ultimately vest, one half of this amount is distributed as shares to holders 18 months after grant and the remainder three years after grant. Three years following the date of grant all RSUs that have vested in accordance with the table, less any RSUs that were distributed earlier, will vest and be distributed as shares.

The number of share options and RSUs granted to each executive and to all senior managers is based on individual performance assessments.

The number of RSUs granted is based on the expected value of the RSUs. For each executive, the award is based on the median of similar awards in a benchmark group and the executive's individual performance.

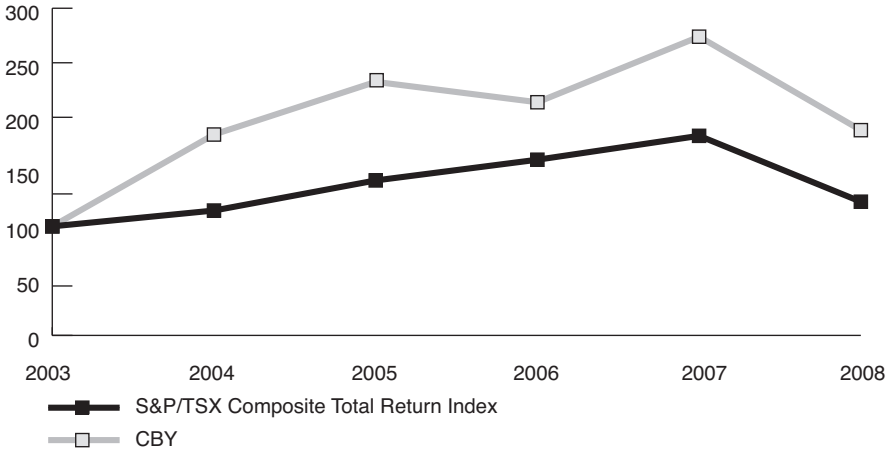

Benefits and Perquisites –

Group Benefits – Executives enjoy the same group benefits (Life, Health, Dental, Disability, Optional Life) as other salaried employees of the Corporation. Benefits and perquisites for the NEOs are below the lesser of $50,000 or 10% of their base salary. Perquisites consist of a car benefit, club membership, annual medical examination, financial counselling and business class air travel. The Corporation does not believe that these compensation features help it to attract, retain and/or motivate executives to any material extent.

Pension Benefits – Pension benefits provided to executives are non-discriminatory. Executives participate in the pension arrangements available to substantially all of the Corporation's salaried employees. In the case of senior executives participating in the Canadian defined benefit pension plans, all required contributions are made by the Corporation while non-executive salaried employees are required to make contributions to the plan.

Comparison of Executive Compensation and Shareholder Returns

For the three years of compensation in the measurement period, compensation of the NEOs increased by 18% while the total shareholder return on the Corporation's shares was a decline of 14%. The following table shows the shareholder return and total compensation for that period.

It is important to note that the total compensation included the full earnings for both the CEO and the CFO who are paid by the Corporation's 89.8% parent company, Maple Leaf Foods Inc. Compensation decisions regarding the CEO and CFO are made by the Board and the Human Resources and Compensation Committee of Maple Leaf Foods Inc. and then reviewed with the Governance Committee of Canada Bread Company, Limited. The CEO's and CFO's compensation is borne partially by Canada Bread Company, Limited and partially by Maple Leaf Foods Inc. through a shared services agreement.

Notes:

(1) Total shareholder return is calculated on the basis of the year-end share value with dividends reinvested. The amount in the "Total 2006 to 2008" column is the aggregate compound return over the three-year period.

(2) The total compensation shown for all NEOs is the total compensation as that term is defined for purposes of the summary compensation table for the NEOs.

SUMMARY COMPENSATION TABLE

The following table provides a summary of compensation earned during each of the last three fiscal years by the CEO, the CFO (including any individual who held the position during the year), and the three most highly compensated executive officers other than the CEO and CFO. The CEO, CFO and other executive officers are referred to collectively as the "NEOs". This information is given as of December 31, 2008, the end of the most recently completed financial year of the Corporation.

Notes:

(1) All compensation shown for Mr. Lan other than equity based and long term compensation amounts is paid in US dollars. The amounts in the table above were converted using the average exchange rate for the year: 1.0660 in 2008, 1.0748 in 2007, and 1.1341 in 2006. In the table below under the heading "Summary Compensation Table – Supplemental Information", Mr. Lan's compensation is shown in US dollars.

(2) The share-based awards represent restricted share units ("RSUs") granted under the 2006 Share Incentive Plan, details of which are found on page 16 under the heading entitled "Share-Based Incentive Plans". The RSUs have been valued using assumptions and methodology consistent with those for valuing the expense in the financial statements, except that no discount for potential forfeiture of RSUs due to termination of employment was factored into the valuation. The number of shares expected to vest under the plan was estimated based on the historic volatility of the Corporation's share price in comparison to the volatility of the S&P Food Index. The assumptions used for accounting purposes are found in Note 17 of the financial statements of the Corporation for the years ended December 31, 2008 and 2007. The financial statements may be found on the Corporation's website at www.mapleleaf.ca and on SEDAR at www.sedar.com.

(3) Messrs. Lan and Maycock participate in defined contribution plans of the Corporation. Mr. McLean and Mr. Ménard are members of the Canada Bread defined benefit pension plans, while Mr. Vels belongs to the Maple Leaf Foods defined benefit pension plans. The amount in the table above represents the pension expense related to the service for each of the NEOs, including the impact of differences between actual compensation paid in 2008 and the actuarial assumptions used for the year. The amount shown for Mr. Lan is the Corporation's contribution to a defined contribution 401(k) plan in the United States and for Mr. Maycock to the Corporation's Group Personal Pension Plan in the UK.

(4) All compensation shown for Mr. Maycock other than equity-based and long-term compensation amounts is paid in U.K. pounds sterling (GBP£). The amounts in the table above were converted to GBP£ using the average exchange rate for the year: 1.9617 in 2008, 2.1487 in 2007, and 2.0886 in 2006. In the table below under the the heading "Summary Compensation Table – Supplemental Information", Mr. Maycock's compensation is shown in GBP£.

Share-Based Incentive Plans

In 2006, Maple Leaf Foods adopted a new share-based incentive compensation plan (the "2006 Plan" or the "RSU Plan") for its employees and executive officers and employees and executive officers of its subsidiaries (including Canada Bread). The 2006 Plan provides for the grant of restricted share units ("RSUs"). On maturity, assuming the performance criteria are achieved, participants receive one fully paid share of Maple Leaf Foods for each vested RSU held. The following table sets out the RSUs awarded to the named executive officers in 2008 under the 2006 Plan. Executives of Canada Bread have participated in Maple Leaf Foods' three equity incentive plans: the 1982 Option Plan, the 2004 Share Incentive Plan and the 2006 Plan. The 2004 Share Incentive Plan provides for the grant of options and restricted share units ("RSUs") that are satisfied by the issuance of shares by Maple Leaf Foods from treasury. The 2006 Plan provides for the grant of RSUs that are satisfied through the acquisition of Maple Leaf Foods shares in the market by a trust established for that purpose. Share options were issued under the 1982 Option Plan and the 2004 Share Incentive Plan.

Generally, all share options and RSUs have a performance condition whereby vesting is based on the total return of the Maple Leaf Foods' shares for the period compared with the total return of the S&P Food Index, a group of approximately 30 North American food stocks.

Notes:

(1) All share options listed in the table above vest over a minimum of three years and maximum of five years based on the return of the Maple Leaf Foods shares for the period compared with the return of the S&P Food Index. If the total return of the Maple Leaf Foods shares is below 75% of the total return of the comparative index for the relevant measurement period, none of the options vest. At 75%, one-half vest. If performance falls between 75% and 100% a proportionate number will vest. The options have a term of seven years but expire earlier if the executive ceases to be an employee.

(2) The in-the-money value was calculated using the closing share price of Maple Leaf Foods on the TSX of $11.07 per share on December 31, 2008.

(3) RSUs granted before 2006 were granted under the 2004 Share Incentive Plan. Under the plan, for each RSU awarded, if the performance vesting conditions are met, one share of Maple Leaf Foods will be distributed to the participant. The RSUs vest over three to five years based on the total return of Maple Leaf Foods' shares for the period compared with the total return of the S&P Food Index. If the total return of the Maple Leaf Foods shares is below 75% of the total return of the comparative index for the relevant measurement period, none of the options vest. At 75%, one-half vest. If performance falls between 75% and 100% a proportionate number will vest. On maturity, participants receive one fully paid Maple Leaf Foods share for each vested RSU held. The units meeting the performance criteria on or before the first three years vest at the end of year three while units meeting the performance feature in the years four and five vest at the end of year five. The RSUs only vest fully on the distribution date, and an executive who ceases to be an employee prior to the distribution date forfeits the awards.

(4) Since 2006, all RSUs have been granted under the 2006 Plan. For each RSU granted, one share of Maple Leaf Foods is awarded on maturity if Maple Leaf Foods' performance equals the S&P Food Index. At 75% performance or less, one-half share of Maple Leaf Foods vests and is awarded. At 125% performance, the maximum, one and a half Maple Leaf Foods shares, vest and are awarded. Vesting is prorated if Maple Leaf Foods' performance is between 75% and 100% or 100% and 125%. One-quarter of the number of units vest 18 months after grant and that number of Maple Leaf Foods shares is distributed to holders. Three years following the date of grant all Maple Leaf Foods shares vesting pursuant to the formula above, less the shares that vested and were distributed earlier, will vest and be distributed. The RSUs only vest fully on the distribution date and an executive who ceases to be an employee prior to the distribution date forfeits the awards. The number of shares shown in the table above is the maximum number of shares that will be distributed assuming the Maple Leaf Foods' share price performance exceeds the 125% maximum.

(5) The market payout value is based on:

(i) the share price of Maple Leaf Foods at December 31, 2008, $11.07; and,

(ii) the number of Maple Leaf Foods shares that will be distributed assuming that Maple Leaf Foods' share price performance for all performance periods ending after December 31, 2008 is below the 75% minimum described in footnotes 3 and 4 above.

(6) Mr. Maycock resigned from his position effective February 28, 2009.

Pension/Retirement Plans

The Corporation, either directly or through designated subsidiaries, currently maintains a number of defined benefit and defined contribution pension plans for its employees.

As noted in the footnotes to the Summary Compensation Table, Mr. Lan participates in a defined contribution 401(k) plan of the Corporation, while Mr. Maycock participates in a group personal pension plan which is also a defined contribution arrangement. Mr. McLean and Mr. Ménard are members of the Canada Bread defined benefit pension plans, while Mr. Vels belongs to the Maple Leaf Foods defined benefit pension plans. Mr. Ménard also has credited years of service under the Multi-Marques Inc. pension plan. Specific information pertaining to each of these pension plans is detailed below.

The accrued pension liability is calculated following the method prescribed by the Canadian Institute of Chartered Accountants and is based on management's best estimate of future events that affect the cost of pensions, including assumptions about future salary adjustments. The amounts in the table are for defined benefit plan obligations. Changes in the accrued pension liabilities for the NEOs are summarized in the following table. These changes include the fiscal 2008 expense attributed to service and compensation (see footnote (4) to the table below) as well as changes arising from the annual valuation of the Corporation's pension plans, which includes all employees who are participants (see footnote (5) to the table below).

Notes:

(1) The number in this column is the number of years of credited service under the defined benefit arrangements as at December 31, 2008.

(2) This is the amount of pension the executive will be entitled to at retirement at year end and is based on the salary and years of credited service earned to December 31, 2008. The actual pension the executive will receive may be higher (due to additional years of service after 2008 or increase in the average earnings) or lower if the executive elects to receive a longer period of guaranteed payments or if the pension payable is paid on a joint survivor basis with a spouse.

(3) This is the amount of pension the executive will be entitled to at retirement at year end and is based on the salary to December 31, 2008 and years of credited service earned to the year in which the executive turns 65. The actual pension the executive will receive may be higher (due to additional years of service after age 65 or increase in the average earnings after December 31, 2008) or lower if the executive elects to receive a longer period of guaranteed payments or if the pension payable is paid on a joint survivor basis with a spouse.

(4) The amount in this column includes the service cost for the year as well as experience gains and losses arising from the executive's salary increase for the year being greater or lesser than the assumption used for the plan as a whole.

(5) The amount in this column includes interest on the beginning-of-year liability and contributions, as well as changes in interest rate assumptions as the result of changes in long-term bond yields and changes in exchange rates.

(6) The calculation of reported amounts use actuarial assumptions and methods that are consistent with those used for calculating pension liabilities and annual expenses as disclosed in the Corporation's 2008 and 2007 consolidated financial statements. As the assumptions reflect the Corporation's best estimate of future events, the values shown in the above table may not be directly comparable to similar estimates of pension liabilities that may be disclosed by other corporations. However, the figures in the table are calculated on the assumption that the executive's employment will terminate at the normal retirement age.

Defined Contribution Plans Table

Mr. Lan participates in the Corporation's 401(k) plan for its US employees. Mr. Maycock participates in a Group Personal Pension Plan for UK employees. The account maintained for Mr. Maycock, as with those for other employees in the UK, is personal to Mr. Maycock and the Corporation's involvement is limited to contributions. Accordingly, no information is available or provided.

REPORT ON CORPORATE GOVERNANCE

This Statement of Corporate Governance Practices has been prepared by the Governance Committee of the Board and has been approved by the Board of Directors.

The Board of Directors and management of the Corporation are committed to maintaining a high standard of corporate governance. The Board has responsibility for the overall stewardship of the Corporation and discharges such responsibility by reviewing, discussing and approving the Corporation's strategic planning and organizational structure and supervising management with a view to preserving and enhancing the underlying value of the Corporation. Management of the business within this structure is the responsibility of the Chief Executive Officer ("CEO") and senior management.

The Board has adopted the guidelines and employs practices and procedures related to corporate governance matters, which are summarized below:

BOARD RESPONSIBILITIES

1. Board Mandate

   The Board has responsibility for the stewardship of the Corporation and has adopted a formal mandate setting out the Board's stewardship responsibilities, including the Board's responsibilities for the appointment of management, strategic planning, monitoring of financial performance, financial reporting, risk management and oversight of the Corporation's policies and procedures, communications and reporting and compliance. A full copy of the Board's mandate is available on SEDAR (www.sedar.com) and is incorporated by reference into this Management Information Circular.

2. Corporate Strategy

   Management is led by the CEO who is responsible for the development of long-term corporate strategy, while the role of the Board is to review, question, validate, and ultimately, after incorporating the Board's suggestions to the proposals of management, to approve the strategies of each division of the Corporation and the Corporation as a whole. The process of strategy development is continuous and evolving and the Board receives periodic updates from management on developments to the Corporation's long-term strategy. On a rotating basis, the Board conducts an in-depth review of each division's operations, competitive positioning and strategy. At the time it reviews the Corporation's annual budget, the Board reviews the Corporation's strategic plans.

   The Board also reviews periodic updates of the Corporation's progress on its strategic goals and makes major decisions in the context of the strategic plan

3. Succession Planning

   Management succession planning is an ongoing activity. The Board ensures that succession planning programs are in place, including programs to appoint, train, develop and monitor management.

4. Board Communication with Stakeholders

   The Corporation has adopted and follows a Disclosure Policy for the Corporation. The Board, or an appropriate committee of the Board, reviews the content of the Corporation's major communications to shareholders and the investing public, including quarterly and annual reports, management's discussion and analysis, proxy circulars, the annual information form and any prospectuses.

   The Board believes management should speak for the Corporation in its communications with the investment community, the media, customers, suppliers, employees, governments and the general public. If communications from stakeholders are made to the Chairman or other individual directors, management is informed and consulted to determine any appropriate response.

5. Corporate Governance

   The Governance Committee is responsible for developing and recommending improvements to corporate governance guidelines, policies and mandates for implementation by the Board.

BOARD ORGANIZATION AND MEMBERSHIP

6. Chairman of the Board

   The Board has approved and periodically reviews a written position description for the Chairman which sets out the responsibilities and accountabilities of the Chairman which include duties relating to setting Board meeting agendas, chairing Board and shareholder meetings, and, together with the Chairman of the Governance Committee, conducting director and Board assessments.

7. Board Size and Selection of New Director Candidates

The maximum number of directors permitted by the Corporation's Articles is 12 and the minimum number is five. Within that range, the Board is authorized to establish the number of directors.

The Corporation's largest shareholder, Maple Leaf Foods holds 89.8% of the outstanding shares which effectively gives it control of the nomination process. The Chairman of the Board and the Governance Committee and its Chairman, however, have led the process of new director nominations for independent directors in consultation with Maple Leaf Foods. Each member of the Governance Committee is independent. Other directors are encouraged to identify potential candidates for nomination.

8. Independence of Directors

Subject to the rights of the majority shareholder, at all times a sufficient number of independent directors are to be nominated to represent the interest of other shareholders. The Board has defined an independent director to mean a director who is not a member of management and is free from any interest, and any business, family or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act with a view to the best interests of the Corporation.

A director shall not be considered to be independent if the director would not be considered independent under director independence tests for Audit Committee membership under applicable securities laws.

The Board annually reviews the report of the Governance Committee on its review of the independence of each of the non-management directors.

The following directors are considered to be "independent":

W.E. Aziz

S.A. Everett J.F. Petch

The following directors are considered to be "not independent" as they are executive officers of either the Corporation or its 89.8% shareholder, Maple Leaf Foods, which provides management services to the Corporation:

G.W.F. McCain – Chairman of the Board of Maple Leaf Foods

M.H. McCain – Chairman of the Board of the Corporation and CEO of Maple Leaf Foods

J.S. McCain – President and COO, Agribusiness Group, Maple Leaf Foods

R.A. Lan – CEO of the Corporation and Chief Operating Officer, Foods Group, Maple Leaf Foods

M.H. Vels – CFO of the Corporation and Maple Leaf Foods Inc.

9. Term Limits for Directors

The Board values the increased insight into the Corporation and its strategy and operations that directors develop and the increased contribution that directors make over a long period of service. For this reason, the Board has not established fixed term limits as it would have the effect of forcing off the Board directors who have developed these insights. To ensure continued effectiveness of each director, the Board relies on its performance evaluation process.

10. Composition of the Board

Annually, the Governance Committee reviews the competencies, skills and personal qualities of candidates to be considered for nomination to the Board. The objective of this review is to maintain the composition of the Board in a way that provides, in the judgment of the Board, the best mix of skills and experience to provide for the overall stewardship of the Corporation. The Governance Committee takes into account the desirability of maintaining a reasonable diversity of personal characteristics such as age, gender, geographic residence and origin. However, all directors must possess the highest personal and professional ethics, integrity and values and be committed to representing the long-term interests of the shareholders. They must also have an inquisitive and objective perspective, practical wisdom and mature judgment, outstanding ability in their individual fields of expertise and a willingness to devote necessary time to Board matters.

11. Director Orientation and Education

The Governance Committee is responsible for the orientation and education of new directors as well and the continuing education of existing outside directors. A standard template has not been developed as the skills, knowledge of the Corporation and the industry and background of each new director will in large measure determine the nature and intensity of the orientation and education. The Committee oversees the continuous education of directors on the Corporation's various operational units, functional areas and other areas of interest to the directors. This is accomplished with a program of regular presentations, briefings and plant visits.

BOARD COMMITTEES AND TERMS OF REFERENCE

12. Board Committees

The Board has established two Board committees: (i) the Audit Committee; and (ii) the Governance Committee. This structure may change as the Board considers from time to time which of its responsibilities can best be fulfilled through a detailed review of matters at the committee level. Each committee operates according to a Board-approved written charter outlining its duties and responsibilities. A written set of procedures and policies set out the role of the committee chairman.

The purpose of Board committees is to assist the Board in discharging its responsibilities. Notwithstanding the delegation of responsibilities to a Board committee, the Board is ultimately responsible for matters assigned to each committee for its determination. Except as may be explicitly provided in the charter of the committee or a resolution of the Board, the role of the Board committee is to review and make recommendations to the Board with respect to the approval of matters considered by the committee.

13. Membership of Committees

The Board has determined that each committee shall be composed entirely of independent directors. In addition, all members of the Audit Committee shall be financially literate within the meaning of applicable securities laws.

After receipt of recommendations from the Governance Committee, the Board appoints the members of the committees annually, and as necessary to fill vacancies, and generally appoints the chair of each committee. Members of the committees hold office at the pleasure of the Board.

The Committees' members and year first appointed are as follows:

BOARD MEETINGS AND MATERIALS

15. Functioning of the Board

The Governance Committee, together with the Chairman of the Board, is responsible for assessing and recommending changes to ensure the Board carries out its objectives effectively and operates independently of management.

16. Meeting Agendas, Materials and Attendance of Non-Directors

Procedures are in place governing the conduct of meetings, including among other things, agendas, distribution of briefing materials and attendance of non-directors at meetings. These procedures are followed to promote informed and effective consideration of the matters on the agenda. Other senior managers attend each Board meeting to provide information and opinions to assist the directors in their deliberations.

17. *In Camera* Meetings

At the request of any director and at least annually, and at the start of each regularly scheduled meeting, the independent directors meet *in camera* without management or the non-independent directors present. The Chairman of the Governance Committee acts as Chairman of these meetings. Since the commencement of the last completed fiscal year there have been three (3) *in camera* meetings.

DIRECTOR COMPENSATION AND SHARE OWNERSHIP

18. Director Compensation

The Board has determined that the directors should be compensated in a form and amount which is appropriate and which is customary for comparable companies, having regard for such matters as time commitment, responsibility and trends in director compensation.

The Governance Committee reviews the compensation of the directors annually. The Governance Committee review includes consideration of all forms of compensation that a director receives, directly or indirectly. Directors are encouraged to use all or a portion of their annual fees to purchase shares of the Corporation.

BOARD'S RELATIONSHIP WITH MANAGEMENT

19. Board Relationship with Management

Management shall make appropriate use of the Board's skills before decisions are made on key issues. The Governance Committee shall review and assess the Board's relationship with management.

20. Limits to Management Authority

As required by the Corporation's by-laws, the Board has established general authority guidelines that place limits on management's approval authority depending on the nature and size of the proposed transaction. These limits provide for some flexibility within approved budgets but require that transactions outside defined limits be approved by the Board or an appropriate committee.

21. Evaluation of the Chief Executive Officer

The Governance Committee conducts an annual review of the performance of the Chief Executive Officer against a written position description and the goals and objectives that have been established by the Committee and reviews, assesses and recommends the compensation of the Chief Executive Officer to the Board for approval. The results of the review are communicated to the Chief Executive Officer by the Chair of the Governance Committee.

22. Director Access to Management

All directors are to have open access to the Corporation's senior management for relevant information. Individual directors are encouraged to make themselves available for consultations with management outside Board meetings in order to provide specific advice and counsel on subjects where such directors have special knowledge and experience.

DIRECTOR RESPONSIBILITIES AND PERFORMANCE

23. Director Responsibilities

Directors are expected to use their skill and experience to provide oversight to the business of the Corporation. Directors have a duty to act honestly and in good faith with a view to the best interests of the Corporation and to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. Directors are expected to attend all Board and committee meetings in person (or by telephone). In circumstances where a director is unable to do so, he or she has the opportunity to communicate his or her views that are then shared with the full Board. A summary of the attendance record of each director at Board and committee meetings in 2008 is detailed on page 25.

24. Outside Advisors for Individual Directors

The Board has determined that any director who wishes to engage a non-management advisor to assist on matters involving his or her responsibilities as a director at the expense of the Corporation should review the request with, and obtain the authorization of the Governance Committee. This pre-approval requirement does not limit the authority of the Audit Committee to engage consultants or advisors on matters of financial reporting.

25. Assessment of Board and Individual Director Performance

The Governance Committee periodically assesses the effectiveness of the Board through discussions and surveys. Informally, the performance and contribution of individual directors is assessed by the Governance Committee. The Committee has adopted a formalized program of periodic directors' assessment with a view to improving effectiveness, consisting of a self-assessment by individual directors followed by an interview with the Chairman of the Board and Chairman of the Governance Committee. The overall results and conclusions are shared with the full Board of Directors.

ETHICS AND CONFLICTS OF INTEREST

26. Ethical Behaviour

The Board takes all steps to assure itself of the ethics and integrity of the CEO and the executive officers and ensure that the appropriate "tone-at-the-top" for ethical conduct is established.

27. Code of Business Practice

The Board expects directors, officers and employees to act ethically at all times and to acknowledge their adherence to the policies comprising the Code of Business Conduct which the Corporation together with its parent company, Maple Leaf Foods, adopted in 1999. Each year, every employee is required to reaffirm in writing his or her adherence to the Code of Business Conduct concurrent with his or her performance review. New employees are given a copy of the Code upon joining the Corporation. Copies are available from the Corporation at 10 Four Seasons Place, Toronto, Ontario M9B 6H7 and are also available on SEDAR at www.sedar.com.

An "Ethics Committee" comprised of management personnel for the Corporation and Maple Leaf Foods, reviews and addresses issues of interpretation of the Code raised by employees and proposes changes to the Code. The Ethics Committee reports on its activities to the Governance Committee.

28. Whistle-blower Procedures

The Corporation has set up a whistle-blower hotline named the EthicsLine. The EthicsLine provides employees an avenue to raise concerns such as fraud, accounting irregularities, kickbacks, product tampering or other issues. The process was designed to reassure complainants that they will be protected from reprisals or victimization when reporting concerns in good faith. All calls are recorded and logged at an independent call centre and the incidents reported are tracked and resolved using the case management system. The Audit Committee reviews reports on the calls and their resolution on a quarterly basis.

29. Conflicts of Interest

In addition to the statutory responsibilities of directors to disclose all actual or potential conflicts of interest and generally to refrain from voting on matters in which the director has a conflict of interest, the director is required to declare his or her interest in the matter to be discussed and shall recuse himself or herself from any discussion or decision on any matter in which the director is precluded from voting as a result of a conflict of interest or which otherwise affects his or her personal, business or professional interests.
