CEO Compensation - Success Metrics

Question

Does the company have predefined corporate performance indicators relevant for the CEO's variable compensation?

Rationale

Use of financial metrics to evaluate management performance have become ubiquitous as the benefits of aligning incentives with company performance have been established. Our research shows that use of revenue, operating profit, and EPS are common practice. Differentiation is now only observed in a few aspects, including use of return metrics (capital efficiency) and relative metrics which compare the company to peers. In this question, we aim to find out which corporate performance indicators are used to determine CEO variable compensation. Please include only metrics applied to the CEO.

Performance Summary	
Question Level Company Performance	0
Question Weight	5
Year-on-Year Change	0
Industry Average Score	15
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Key Definitions

Success metrics for variable CEO compensation: part of this question, any corporate performance indicators that are used to determine the CEO's variable compensation should be indicated. Please only include metrics that apply to the CEO's compensation, not metrics that are selectively used for other senior executives or specialist senior managers at a lower level (such as CFO or COO).

Financial metrics: Financial Returns refer to capital efficiency (capital is the source of funds, debt, equity, etc.). Therefore Financial Returns always use an Income Statement profit metric (e.g. EBIT, income, operating income) divided by a Balance Sheet metric (e.g., Assets (entire balance sheet), Equity, Total Capital (debt plus equity), Invested Capital. We do not accept revenue growth, net profit after taxes, earnings per share and dividends per share. Acceptable financial metrics include: Return on Assets, Return on Equity, Return on Invested Capital.

Data Requirements

Please only include metrics that apply to the CEO's compensation, not metrics that are selectively used for other senior executives or specialist senior managers at a lower level (such as CFO or COO).
