Materiality Analysis

Question

Does the company disclose details of its materiality determination process and how the materiality analysis is conducted?

Rationale

The purpose of this question is to assess the extent to which companies are disclosing their materiality analysis and progress towards established targets or metrics. We are looking for the following evidence in the public domain:

- The process is described
- The material issues are identified
- The material issues are prioritized
- External stakeholders are included in the process
- Targets for the material issues
- Progress towards achieving the targets

Performance Summary	
Question Level Company Performance	75
Question Weight	30
Year-on-Year Change	0
Industry Average Score	37
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Definition

Materiality: Any factor that can have a present or future impact on value creation and therefore the financial performance of the company over time. These could be economic, environmental, or social in nature.
