Question: Training & Development Inputs
Include Modeled Scores : Yes

Training & Development Inputs

Question

Please fill out the following table for the related training & development data for the last fiscal year and attach supporting evidence of where this information is reported.

Rationale

To address the skills gap challenge and remain competitive in attracting and retaining talents, companies must carefully assess their investments in training, upskilling and reskilling their workforce. Training & development can lead to positive outcomes such as reduced turnover, reduced external hiring costs and a more engaged and committed workforce. This question assesses whether companies are leveraging their current workforce capabilities by investing in their training & development, and whether these investments are made fairly across the entire employee base.

Performance Summary	
Question Level Company Performance	90
Question Weight	30
Year-on-Year Change	(10)
Industry Average Score	39
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Key Definitions

FTEs: Full-Time Equivalents is the number of working hours that represents one full-time employee during a fixed time period, such as one month or one year. The concept is used to convert the hours worked by several part-time employees into the hours worked by full-time employees.

Average hours of training and development per FTE: it refers to the total number of hours of training and development provided in the last fiscal year divided by the total number of FTEs.

Average amount spent on training and development per FTE: it refers to the total amount spent on training and development in the last fiscal year divided by the total number of FTEs. This figure should not include 'learning and development' team operational cost like this team's employee salaries.

By type of training: Here different types of training may include but are not limited to "on-the-job" training, coaching, mentorship, leadership trainings, compliance trainings, cultural diversity training, IT training, OHS training, etc.

Data Requirements

- Companies with less than 100 employees (e.g. investment offices and vehicles, funds, holding companies, etc.) should mark this question Not Applicable.

Disclosure requirements

- Additional credit will be granted for relevant publicly available evidence covering the following aspect of this question:
  - Average hours of training spent per FTE and/or
  - Average amount spent per FTE on training and development programs
- **Difference in coverage of the different KPIs:** this question asks for two different KPIs. In case the reporting coverage of these KPIs is different, e.g. a company can provide data for "Average hours of training spent per FTE" for 70% of FTEs, but "Average amount spent per FTE" for only 30% of FTEs, then for reasons on consistency the company should provide data for both KPIs for 30% of FTEs.
- **Difference between publicly and privately available data:** Companies should report information in line with their public reporting. That means in case a company publicly reports on "Average hours of training and development per FTE" for 50% of FTEs but could answer the question with a larger coverage that it is only privately available (e.g. for 100% of FTEs), the company should fill out the question only based on the information publicly reported and hence verifiable.

Data breakdown

- Companies can provide data breakdown for either of the two KPIs asked, i.e. "Average hours of training spent per FTE" and/or "Average amount spent per FTE on training and development programs"
- We don't expect companies to break down the data by all the categories mentioned in the question, but full points for this section will be granted for having a breakdown for at least 2 categories. The purpose of this section is to assess whether companies are able to track these KPIs in a way that allows them to evaluate and reassure fair treatment of all employees.
- In Europe, according to the **Article 9 of the GDPR**, it is prohibited to process personal data revealing racial or ethnic origin, except if the data subject has given explicit consent to the processing of those personal data, provided this is not prohibited by national law. Other exemptions exist, such as reasons of substantial public interest which might include statistical research purposes for equality of opportunity and treatment. We therefore expect companies to report on **only two different categories,** in order to not penalize companies that do not report data breakdown on race.
- For this section, companies can attach either private or public evidence and we expect to see the specific data broken down by these categories e.g. " x% average hours of training spent per FTE" for junior employees, y% for mid-level managers and z% for senior managers.

References

GRI Standard 404-1 is relevant for this question.

Data View

QUESTION LEVEL INPUT	COMPANY ANSWER
Company's Training & Development Inputs	Applicable
Data coverage of reported data	100% of all FTEs globally
Public evidence on average hours per FTE of training and development in the last fiscal year	YES
Average hours per FTE of training and development in the last fiscal year (hours)	19.400
Public evidence on average amount spent per FTE on training and development	-
Average amount spent per FTE on training and development in the last fiscal year (Mex$)	107.700
Training breakdown by age	-
Training breakdown by gender	YES
Training breakdown by management level	YES
Training breakdown by race, ethnicity, nationality, country of origin or cultural background	-
Training breakdown by training type	YES

Questionnaire

Please fill out the following table for the related training & development data for the last fiscal year and attach supporting evidence of where this information is reported.

1. ◉

Please indicate the percentage of global FTEs the data in the table below represents:

100% of all FTEs globally

	FY 2020
Average hours per FTE of training and development	
1. ☑	19.4
This data is publicly available. Please provide supporting evidence or web link:	
Average amount spent per FTE on training and development.	107.7
1. ☐	Currency:
This data is publicly available. Please provide supporting evidence or web link:	

DATA BREAKDOWN

We break down the data for either of the KPIs above based on the following categories. Please select any that apply and attach supporting evidence:

1. ☐

Age group

2. ☑ Gender
3. ☑ Management level (e.g. junior/low level, middle, senior/top level management)
4. ☐ Race, ethnicity, nationality, country of origin, cultural background
5. ☑ Type of training

2. ○ We do not track these metrics related to employee training and development.
3. ○ Not applicable. Please provide explanations in the comment box below.
4. ○ Not known
