Climate Risk Management

Question

Does the company have a climate risk management process?

Rationale

This question focuses on the processes and strategies that your organization uses to structure its approach to climate change. Companies should select the option that best describes their risk management procedures with regard to climate change risks and opportunities.

Performance Summary	
Question Level Company Performance	100
Question Weight	7
Year-on-Year Change	0
Industry Average Score	68
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Data Requirements

If you have more than one procedure in place in your organization, please select the one that is most commonly employed.

Supporting evidence:

- The document(s) you attached will be used to verify your response.
- The supporting documents do not need to be available in the public domain.
- If a question text field is available, a comprehensive answer in that field can be accepted instead of a supporting document.
- Any response that cannot be verified in the attached document(s) or via the information provided in the related question text field (if available) will not be accepted.

Standards & frameworks

CDP Climate - C2.2

TCFD - Risk Management (a), Risk Management (b), Risk Management (c)

UNGC Questionnaire - G7

QUESTION LEVEL INPUT	COMPANY ANSWER
Company's Climate Change Strategy	Integrated process

Questionnaire

How are your organizations' processes for identifying, assessing, and managing climate-related issues integrated into your over-all risk management? Please attach supporting evidence.

1. (●) Integrated into multi-disciplinary company-wide risk management processes, i.e. a documented process where climate change risks and opportunities are integrated into the company's centralized enterprise risk management program covering all types/sources of risks and opportunities
2. ( ) A specific climate change risk management process, i.e. a documented process which considers climate change risks and opportunities separate from other business risks and opportunities
3. ( ) There are no documented processes for assessing and managing risk and opportunities from climate change.
4. ( ) Not applicable. Please provide explanations in the comment box below.
5. ( ) Not known
