Board Average Tenure

Question

Does the company report the average tenure of board members on its board of directors/supervisory board in years?

Rationale

Corporate boards are tasked with monitoring companies' management teams on behalf of those companies' shareholders and other stakeholders. Boards are the direct representatives of these stakeholders and form one of the most important components of corporate governance. It is therefore important that the board members selected have the right experience and skills, are sufficiently independent, and act in the best interests of all stakeholders. Board tenure reflects retention and continuity on one hand, and refreshment of skills and perspectives, and independence on the other.

Research strongly supports the assertion that optimal board tenure is in the **7 to 12-year range**, and that firm value declines as average tenure deviates therefrom.

Performance Summary	
Question Level Company Performance	100
Question Weight	6
Year-on-Year Change	1
Industry Average Score	60
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Data Requirements

Tenure: the number of years a member has served on the board of directors. For example: if a director was appointed in March 2014, his tenure would be counted as 2020-2014 = 6 years.

If a company is less than 10 years old, the company should mark the question as Not Applicable.

For **two-tier boards:** Employee representatives and senior executives should not be included in the calculation for two-tier boards, as they are not considered in the calculation of the total size of the supervisory board. The management board members should not be included when calculating the average tenure.

For **one-tier boards:** All board members should be reported, including executive, independent and non-executive members.

Disclosure requirements: Average board tenure and/or individual tenure of each member of the board of directors needs to be publicly disclosed for **Listed Companies**.

Non-listed companies can provide internal documents and/or links to public reports or corporate websites.

Mergers and Acquisitions: If the company is a spin-off or merger, tenure from the previous company is counted.

Average tenure of board of directors (years)	11.220

Questionnaire

Please indicate the average tenure of board members on your company's board of directors/supervisory board in years. If your company has a one-tier board structure, this figure includes all members (executive directors, non-executive directors and independent directors). If your company has a two-tier board structure, this figure ONLY includes independent directors and non-executive directors (e.g. exclude employee representatives). Please indicate where this information is available.

Listed companies are required to provide links to public reports or corporate websites.

Non-Listed companies may provide internal documents and/or links to public reports or corporate websites.

1. (●) Average tenure of board members in years:
   11.22
2. ( ) We do not report this information
3. ( ) Not applicable. Please provide explanations in the comment box below.
4. ( ) Not known
