Management Ownership Requirements

Question

Does the company have specific stock ownership requirements for the CEO and other members of its executive committee?

Rationale

As corporate governance systems aim to ensure that a company is managed in the interests of its shareholders, in this question we assess whether there are stock ownership guidelines in place for the company's CEO and other executives. Academic research (e.g. Bhagat and Bolton 2008) suggests that stock ownership by senior management is positively correlated to future operating profit.

Performance Summary	
Question Level Company Performance	0
Question Weight	5
Year-on-Year Change	0
Industry Average Score	7
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Data Requirements

The question assesses if there are explicit requirements indicating that the CEO and/or other executive managers are required to build up share ownership equivalent to a specific multiple of their annual base salary.

Disclosure requirements: Share ownership requirements for the Chief Executive Officer and for all other company executives.

Listed companies are required to provide links to public reports or corporate websites.

Non-Listed companies may provide internal documents and/or links to public reports or corporate websites.

Exceptions to the Standard Methodology for Non-Listed companies

The definition of shares includes non-tradable stock and phantom/synthetic shares that replicate the company's share practice performance.

Phantom / synthetic shares: A phantom stock is an employee benefit plan that gives selected employees (senior management) many of the benefits of stock ownership without actually giving them any company stock. This is sometimes referred to as shadow stock. Phantom stock, also known as synthetic equity, has no **inherent** requirements or restrictions regarding its use, allowing the organization to use is however it chooses.
