Question: Fatalities
Include Modeled Scores : Yes

Fatalities

Question

Does the company track its work-related fatalities for employees and contractors?

Rationale

Keeping track of work-related injuries and fatalities should cover a company's entire operations, covering both internal employees and external contractors. This is crucial for ensuring that legal requirements are met, that problematic and/or dangerous operations can be identified, and that safety measures can be improved.

Performance Summary	
Question Level Company Performance	41
Question Weight	32
Year-on-Year Change	(9)
Industry Average Score	25
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

Work-related fatalities: The death of a worker arising from an occupational disease or injury sustained or contracted while performing work that is controlled by the organization or that is being performed in workplaces that the organization controls.

Contractor: Persons or organizations working onsite or offsite on behalf of and organization. A contractor can contract their own workers directly, or contract sub-contractors or independent contractors.

Data Requirements

Disclosure requirements for partially public question. Additional credit will be granted for relevant publicly available evidence covering the following aspect of this question:

- Number of work-related fatalities for employees and contractors for at least the most recent reported year.

Standards & frameworks

GRI Disclosure - 2-5 (2021), 403-10 (2018), 403-9 (2018)

WEF Metrics - Health and Safety (%)
