# Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

BMV:BIMBO A (MI KEY: 4276592; SPCIQ KEY: 877906; TCUID: 53231)

**Additional Disclosure**

**Year:** Methodology Year: 2023
**Question:** Biodiversity Exposure & Assessment
**Include Modeled Scores :** Yes

**Biodiversity Exposure & Assessment**

## Question

Does the company assess the sites used for its operational activities in order to identify sites with significant biodiversity impacts?

## Rationale

The purpose of this question is to assess whether companies conduct periodic assessments of sites used for operational activities (e.g., production, extraction, plantation, or development activities) to determine the exposure to critical biodiversity. Companies that are exposed to critical biodiversity are expected to implement biodiversity management plans to protect and restore habitats.

| Performance Summary | |
|---|---|
| **Question Level Company Performance** | 36 |
| **Question Weight** | 25 |
| **Year-on-Year Change** | (4) |
| **Industry Average Score** | 21 |
| **Industry Highest Score** | 100 |

*The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.*

**Additional Question Guidance & Information Display**

**Key Definitions**

**Biodiversity:** Is critical to the health and stability of natural capital as it provides resilience to shocks like floods and droughts, and it supports fundamental processes such as the carbon and water cycles as well as soil formation. Therefore, biodiversity is both a part of natural capital and also underpins ecosystem services.

**Operational Activities:** Includes any business activity which directly impacts natural capital through its own operations, or indirectly by depending on critical commodities in its supply chain. Such activities may include production, extraction, plantation, construction, power generation, transmission, or development activities.

**Areas:** Refers to land or any other natural environment which is used, owned, leased, operated, or permitted by the company.

**Biodiversity impact assessments:** Defined as an evaluation exercise that involves identifying, measuring, quantifying, valuing the impacts on biodiversity of sites used for operational activities and/or areas in proximity to these sites.

Measures at the level of species or populations are directed towards the attainment of an index of the number of species and their relative abundances within a given landscape (e.g. Mean Species Abundance).

**Critical biodiversity:** Also referred to in the criteria as 'Sites containing globally or nationally important biodiversity' and can include:

- Species classified as Critically Endangered, Endangered, or Vulnerable on the IUCN Red List, endemic species.
- Internationally recognized areas: World Heritage sites, Ramsar Wetlands, UNESCO MAB, Key Biodiversity Areas
- Nationally important biodiversity can include legally protected areas, habitats, and species.

Companies are expected to have a position or commitment to biodiversity and the impact of their operations, even if they do not currently operate in sites containing globally or nationally important biodiversity.

**Proximity to critical biodiversity:** Sites that either contain (i.e., overlapping) or are adjacent (between 0 and 2km from nearest site) to critical biodiversity.

**Biodiversity Management Plans:** Programs addressing threatened species and habitats and are designed to protect and restore biological systems.

**Data Requirements**

This question may be marked "Not applicable" for companies that can credibly demonstrate in a comprehensive comment that their company has:

- No impact on biodiversity in its own operations
- No impact on biodiversity in the company's key raw material supply chains
- No impact at the use-phase or end-of-life of products/services use
- No financing activities which impact or depend on biodiversity.

**Supporting evidence:** Additional credit will be granted for relevant evidence for at least one indicator covering each row. Further credit will be granted for information available in the public domain.

Each column must be completed.

**a) Overall**

- The number of sites should include only those sites linked to operational activities such as the following: production, extraction, forestry plantations, or development.
- Company offices and premises should not be included in the count.

**b) Assessment**

- In this question, we are looking for assessments that are periodically conducted and can be an initial baseline or periodic re-assessment.
- The total area of sites assessed may include areas which are in close proximity to operational sites, and sites that are no longer used for operational activities. Sites that have since been sold may be excluded.
- **Data entered in row b) Assessment should not be greater than row a) Overall.**

**c) Exposure**

- **Data entered in row c) Exposure should not be greater than row b) Assessment.**

**d) Management Plans**

- Sites used for operational activities may only be partially covered by biodiversity management plans. Please only indicate the area which is covered by such a management plan.
- **Data entered in row d) Management plans should not be greater than row c) Exposure.**

**Industry-Specific Guidance:**

**Utilities (ELC, GAS, MUW):**

- ELC & GAS: Utilities that have no power generation or transmission business or are only in electricity/gas distribution should mark Not Applicable and provide an explanation in the comment box.
- MUW industry: Pure water utilities should mark Not Applicable and provide an explanation in the comment box.
- Areas flooded for hydropower generation can only be excluded from the count if the artificial water body has already existed for more than 10 years.
- Transmission lines or gas pipelines should not be counted as "sites" but should be included in the "hectares" column (please use an appropriate geometrical projection - e.g., length of line x width of line).

**Real Estate (REI and REM):**

Companies that have not marked 'Development of major renovation and new construction' as one of the main activities of the business in question '0.1 Denominator Area' should mark “Not Applicable”.

Companies that have marked 'Development of major renovation and new construction' as one of the main activities of the business in question '0.1 Denominator Area' but are only operating in urban environments should mark “Not Applicable” and provide an explanation in the comment box.

**Consumer Discretionary (CNO, TRT):**

Companies in the following industries that are only providing online services should mark “Not Applicable” and provide an explanation in the comment box.

- CNO Casinos & Gaming industry
- TRT Hotels, Resorts & Cruise Lines

**Standards & Frameworks**

CDP Climate - C15.3, C15.4, C15.4a

CDP Forest - F-MM10.2/F-CO10.2, F-MM10.2a/F-CO10.2a

EU Taxonomy - Multiple Activities - DNSH (6)

GRI Disclosure - 304-1

IRIS+ - OI5929, PD3922, PI3924, PI4716, PI6887, PI9556

SFDR Principal Adverse Impacts - Biodiversity, Water, waste and material emissions

UNGC Questionnaire - E16

WEF Metrics - Land use and ecological sensitivity

**Data View**

**No information was found in the public domain.**

**Questionnaire**

Has your company assessed sites used for your own operational activities to identify sites with significant biodiversity impacts?

1. Yes, we have assessed own operational sites to identify sites with significant biodiversity impacts

*Please complete each row of the table below and provide supporting documents. Indicate if this information is publicly available. See Additional information and question guidance for further information.*

| | Number of sites | Area (Hectares) | Supporting evidence |
|---|---|---|---|
| **a) Overall**<br>What is the total number and the total area of your own operational sites? | | | 1. Please provide supporting evidence:<br>1. Documentation regarding the item available is public |
| **b) Assessment**<br>Have you conducted biodiversity impact assessments for your own operational sites? | | | 1. Please provide supporting evidence:<br>1. Documentation regarding the item available is public |
| **c) Exposure**<br>Of the sites assessed, how many sites have a significant biodiversity impact, or are in proximity to critical biodiversity, and what is the total area of these sites? | | | 1. Please provide supporting evidence:<br>1. Documentation regarding the item available is public |
| **d) Management plans** | | | 1. |

# Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

Of those sites that have a significant biodiversity impact, or are in proximity to critical biodiversity, how many sites have a biodiversity management plan, and what is the total area of these sites?

Please provide supporting evidence:

1. ☐ Documentation regarding the item available is public

2. ○ No, we have not conducted any site assessments.

3. ○ Not applicable. Please provide explanations in the comment box below

4. ○ Not known
