# Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

BMV:BIMBO A (MI KEY: 4276592; SPCIQ KEY: 877906; TCUID: 53231)

**Additional Disclosure**

**Year:** Methodology Year: 2023
**Question:** Open Innovation
**Include Modeled Scores :** Yes

**Open Innovation**

## Question

Please indicate three approaches you have adopted to profit from or contribute to external knowledge to complement in-house R&D. For each approach selected, please provide examples, add supporting evidence and describe/quantify the impacts of the open innovation approach. Please select three different approaches from the provided drop-down menus. Duplicate approaches will not be accepted.

## Rationale

Innovation is a process that depends on a variety of factors such as knowledge, experience, and creativity. In order to access, collect and combine those factors, a variety of collaborative input channels are available. With this question, we assess the use of an extensive set of input channels, with special attention to state-of-the-art innovation indicators covering the whole development chain. We look at whether (and how) companies contribute and participate in knowledge-building and sharing.

Some examples of open innovation approaches include (but are certainly not limited to): the use of business partners or third-party collaborations, distributed creativity such as crowd-sourcing, technology licensing, and open-source initiatives.

**Performance Summary**

| | |
|---|---|
| **Question Level Company Performance** | 70 |
| **Question Weight** | 30 |
| **Year-on-Year Change** | 15 |
| **Industry Average Score** | 21 |
| **Industry Highest Score** | 100 |

*The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.*

**Additional Question Guidance & Information Display**

**Key Definitions**

**Efficiency gains:** A description and quantified impact assessment of the selected open innovation approach (e.g. reduction of the innovation process duration (time unit), reduction of the time to market a product (time unit), etc.). This is related to the innovation process not to the product.

**Cost reduction:** A description as well as the quantified impact on R&D costs (monetary unit).

**R&D collaborations with external business partners:** include collaborations with universities, research centers, joint ventures, and industry associations.

**Distributed creativity:** including customer design contests, crowdsourcing (can be external or company-internal aka "silo-breaking" initiatives)

**Data Requirements**

Please select three different approaches from the provided drop-down menus. Duplicate approaches will not be accepted.

**Supporting evidence:**

- The document(s) you attached will be used to verify the qualitative part of your response. If a question text field is available, a comprehensive answer in that field can be accepted instead of a supporting document. Any qualitative response that cannot be verified in the attached document(s) or via the information provided in the related question text field (if available) will not be accepted.
- Quantitative figures provided in the response do not need supporting evidence. You may still provide a reference using the reference clip. This could include examples of the underlying calculations or approaches to data aggregation used to compile the provided quantitative information.
- The supporting documents do not need to be available in the public domain.

**Data View**

| QUESTION LEVEL INPUT | COMPANY ANSWER |
|---|---|
| Approaches that company has adopted to profit from or contribute to external knowledge to complement in-house R&D | Applicable |
| Approach 1 company has adopted to profit from or contribute to external knowledge to complement in-house R&D | Spin-offs, start-ups |
| Approach 2 company has adopted to profit from or contribute to external knowledge to complement in-house R&D | Suppliers |
| Approach 3 company has adopted to profit from or contribute to external knowledge to complement in-house R&D | R&D collaborations with external business partners |
| Example of open innovation Approach 1 | YES |
| Example of access to human capital, technologies, or innovations from Approach 1 | - |
| Example of open innovation Approach 2 | YES |
| Example of access to human capital, technologies, or innovations from Approach 2 | - |
| Example of open innovation Approach 3 | YES |
| Example of access to human capital, technologies, or innovations from Approach 3 | - |
| This aspects measures the quantification on approach 1 efficiency gains | 68.000 |
| This aspect measures the quantification for approach 2 efficiency gains | 120.000 |
| this aspect measures the quantification of cost revenue for approach 1 | Not answered |
| This approach measures the cost revenue for approach 2 | Not answered |
| this aspect measures the quantification for cost revenue for approach 3 | Not answered |
| This aspect measures the quantification for other impact for approach 1 | Not answered |
| measures the quantification for Other impact for approach 2 | Not answered |
| measures the quantification for approach 3 other impact | Not answered |
| Example of cost reduction / revenue generated from open innovation Approach 1 | - |
| Example of cost reduction / revenue generated from open innovation Approach 2 | - |
| Example of cost reduction / revenue generated from open innovation Approach 3 | - |
| Example of other impacts from Approach 1 | - |
| Example of other impacts from Approach 2 | - |
| Example of other impacts from Approach 3 | - |
| The quantification of efficiency gains from approach 3 | 4.000 |

**Questionnaire**

Please indicate three approaches you have adopted to profit from or contribute to external knowledge to complement in-house R&D. For each approach selected, please provide examples, add supporting evidence and describe/quantify the impacts of the open innovation approach. **Please select three different approaches from the provided drop-down menus. Duplicate approaches will not be accepted.**
