Mexico City, February 26, 2009 – Grupo Bimbo S.A.B. de C.V. ("Grupo Bimbo" or "the Company") (BMV: BIMBO) today reported its results for the fourth quarter and full year ended December 31, 2008.*

As in the first nine months of the year, the Company continued to deliver solid growth in every region, resulting in strong top line performance in the fourth quarter. Net sales for the quarter were Ps. 22.2 billion, a 15.1% rise compared to the same period of last year. These results are mainly attributable to pricing actions taken throughout the year, as well as stable sales volumes and an improved sales mix.

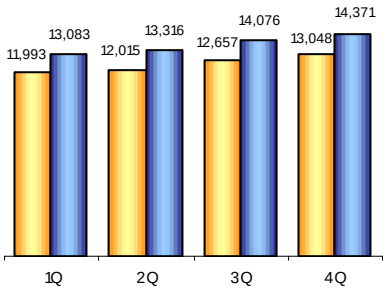

Gross margin decreased 2.2 percentage points in the fourth quarter to 50.4% as a result of continued pressure from raw material prices and the depreciation of currencies against the U.S. dollar during the last three months of the year. On the other hand, operating expenses continued to trend positively in every region, decreasing 3.3 percentage points at the consolidated level. As a result, operating and EBITDA margins expanded 1.0 and 1.1 percentage points to 11.3% and 14.5%, respectively.

Net majority income totaled Ps. 1.3 billion for the quarter, an increase of 31.1% compared to the same quarter of last year. Furthermore, net majority margin improved by 0.7 percentage points to 5.7% due primarily to solid performance at the operating level.

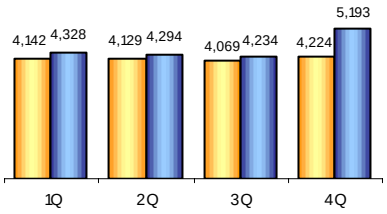

As of December 31, 2008, the Company's cash holdings totaled Ps. 7.5 billion, 84.9% higher than in the same quarter of last year. This increase is largely attributable to a US$475 million drawdown in July of a committed credit facility.

* Figures included in this document are prepared in accordance with Mexican Financial Reporting Standards (NIF). Figures corresponding to 2007 are expressed in constant pesos as of December 31, 2007, while those corresponding to 2008 are expressed in nominal terms.

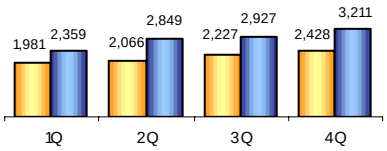

Mexico

Net sales rose 10.1% in the quarter and 10.3% for the year, mainly as a result of higher average prices and new product launches. As has been the trend throughout the year, the non-traditional channels continued to register positive performance.

The baking division implemented an additional mid single-digit price increase in the month of December, which will be fully reflected in 2009, and is related to the impact on raw materials cost due to the currency devaluation.

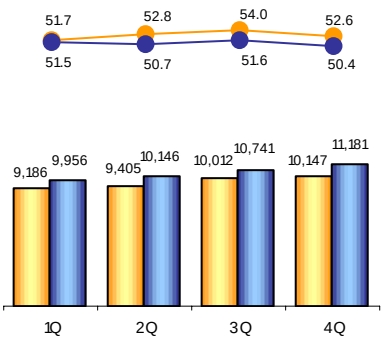

United States

Net sales grew 22.9% in the quarter and 9.0% for the full year in peso terms, while dollar sales increased 1.9% and 6.8%, respectively. This performance was driven by several pricing actions taken over the past 12 months, growth at national retailers and positive performance of new product launches in Oroweat, Mrs. Bairds and the Mexican brands.

Latin America

In Latin America, net sales continued to grow over 30%, with gains registered in every country as a result of the integration of new operations, double-digit volume growth rates, higher average product prices and new product launches. Performance was strongest in Argentina, Brazil, Guatemala, Honduras and Uruguay. Excluding the acquisitions made during the past 12 months, sales growth would have been 15.4% and 16.5% in the quarter and for the year, respectively.

Gross Profit

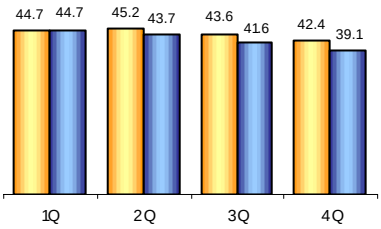

Gross Profit

As in the first nine months of the year, the company continued to face higher prices of key raw materials, which continued to put pressure on gross profit. In the quarter, the impact of this pricing pressure resulted in a 2.2 percentage point erosion in the gross margin to 50.4%. On a cumulative basis, gross margin declined 1.7 percentage points to 51.1%. It is important to highlight that, despite the relief experienced in the international prices of some commodities during the last quarter of the year, raw material costs were significantly impacted by the devaluation of currencies. This was particularly the case in Argentina, Brazil, Colombia, Chile, Costa Rica and Mexico, where devaluation reached double digit rates. These factors more than offset the absorption of fixed costs resulting from increased sales and a more efficient sales mix, particularly in Latin America.

Operating Expenses
(% of net sales)

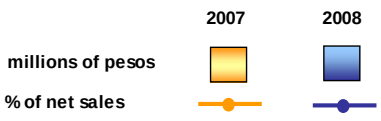

Operating Expenses

Operating expenses, as a percentage of sales, declined 3.3 percentage points to 39.1% in the quarter, due to the Company's significant efforts to contain administrative expenses and increase productivity at the distribution level. By region, it is important to highlight the reduction in distribution expenses in the U.S. and Latin America despite the continued expansion of the distribution networks. Similarly, on a cumulative basis, operating expenses registered a year-over-year decline of 1.8 percentage points to 42.1%, also reflecting the absorption of expenses derived from increased sales.

Operating Income

Operating income for the quarter rose 26.6% as a result of gains in Mexico and the U.S. Higher average product prices and the significant reduction of operating expenses helped to offset pressure from higher raw material prices, resulting in an operating margin expansion of 1.0 percentage point to 11.3% at the consolidated level. On a cumulative basis, operating income increased 12.7% to Ps. 7.3 billion, a margin of 8.9%, comparable to 2007 levels.

On a regional basis, the margin in Mexico expanded 2.7 and 0.6 percentage points for the quarter and for the full year, respectively. This was the result of the absorption of expenses resulting from higher sales and improvements at the operating level that more than offset the raw material pressure experienced throughout the year.

In the United States, the margin during the fourth quarter more than doubled when compared to the same period of last year, to 1.5%, due to the decline in the prices of certain key raw materials and the benefit of lower operating expenses. However, on a cumulative basis, these reductions were not enough to offset the cost escalation experienced during the first nine months of the year, resulting in a margin decline of 0.5 percentage points to 0.7%.

Lastly, in Latin America, the margin declined 1.4 and 0.4 percentage points for the quarter and the full year as the reduction of operating expenses was not sufficient to offset the impact seen in the gross margin. However, Brazil registered noteworthy improvements when compared to last year, mainly resulting from the incorporation of Nutrella in the second quarter of the year.

Comprehensive Financing Result

Comprehensive financing cost resulted in Ps. 267 million in the fourth quarter, compared to a Ps. 34 million gain in the same quarter of last year. On a cumulative basis, financial costs totaled Ps. 539 million, Ps. 308 million higher than in 2007. Both increases are mainly the result of: i) the change in Mexican Financial Reporting Standards effective as of January 1, 2008, which eliminated the majority of the inflationary restatement of the monetary position and that accounted to approximately Ps. 300 million in the year; and ii) an increase in the exchange loss mainly attributable to Latin America.

EBITDA

Net Majority Income

Net majority income totaled Ps. 1.3 billion in the fourth quarter, a 31.1% increase from the same period of last year, while net margin expanded by 0.7 percentage points, to 5.7%, reflecting the trend experienced at the operating level partially offset by a higher comprehensive financial cost.

On a cumulative basis, net income totaled Ps. 4.3 billion, or an increase of 11.5% compared to 2007. Net margin reached 5.2%, a similar level to the previous year.

Financial Structure

As of December 31, 2008, the Company's cash position totaled Ps. 7.5 billion, compared to Ps. 4.0 billion in 2007. The increase is mainly due to the drawdown in July 2008 of the remaining US$475 million of a US$600 million committed revolving facility that the Company contracted in June 2004.

Net debt was Ps. 3.6 billion, 75.5% higher than in 2007, while net debt to stockholders' equity was 0.10 times, compared to 0.08 in the same period one year ago.

It is important to highlight that this ratio changed significantly on a pro-forma basis to 1.1 times when taking into account the debt taken to finance the acquisition in the U.S. As well, it is worth noting that the current currency mix of Grupo Bimbo's debt stands at 54% in U.S. dollars and 46% in Mexican pesos.

Recent Events

On January 21 2009, the Company announced that it has completed the acquisition of the U.S. fresh bakery business of Weston Foods, Inc. (WFI) from Dunedin Holdings S.à r.l., a subsidiary of Toronto-based George Weston Limited (TSX: WN), and the separate acquisition of related financial assets, having received the corresponding approvals and regulatory clearance.

The two transactions were valued at US$2,380 million and US$125 million, respectively. The combined US$2,505 million payment was made through US$2,300 million in financing as well as the Company's existing cash holdings.

The consolidated operation, known as Bimbo Bakeries USA (BBU), became one of the largest baked-goods companies in the U.S., with a leading position in bread, buns, sweet baked goods and cakes across the Country. The premium portfolio includes brands such as ARNOLD®, BIMBO®, BOBOLI®, BROWNBERRY®, ENTENMANN'S®, FRANCISCO®, FREIHOFER'S®, MARINELA®, MRS BAIRD'S®, OROWEAT®, STROEHMANN®, THOMAS'® and TIA ROSA®.

The new operation employs more than 15,000 associates, operates 35 plants and distributes its products through more than 7,000 routes.

Grupo Bimbo's consolidated results will reflect the integration of WFI operations as of January 21, 2009.

Company Description

Grupo Bimbo is one of the largest baking companies in the world in terms of production and sales volume. As the market leader in the Americas, Grupo Bimbo has more than 100 plants and 800 distribution centers strategically located in 18 countries throughout the Americas, Europe and Asia. Its main product lines include sliced bread, buns, cookies, snack cakes, English muffins, bagels, pre-packaged foods, tortillas, salted snacks and confectionery products, among others. Grupo Bimbo produces over 6,000 products and has one of the most extensive direct distribution networks in the world, with more than 40,000 routes and 100,000 employees. Grupo Bimbo's shares have traded on the Mexican Stock Exchange since 1980 under the ticker symbol BIMBO.
