Include Modeled Scores : Yes

Climate-Related Management Incentives

Question

Does the company provide incentives for the management of climate change issues, including the attainment of targets?

Rationale

This question aims to capture how rewards are associated with the management of climate change issues, including attainment of targets. This ensures that climate-related ambitions and goals are embedded throughout the company and that management is held accountable for the achievement of these goals.

Performance Summary	
Question Level Company Performance	20
Question Weight	4
Year-on-Year Change	0
Industry Average Score	18
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

Incentives: Please note that incentives can be positive (i.e., giving access to something) or negative (i.e., preventing access to something). Examples of incentive types include:

- **Monetary:** a bonus or some form of financial remuneration.
- **Recognition (non-monetary):** employee award (e.g., employee of the year) or career progression scheme, but not tied directly to any form of financial remuneration.
- **Other non-monetary rewards:** including increased holiday allowances, special assignment, etc.

Data Requirements

If several types of incentives are used in your company, please select the incentive that is most commonly employed and include the fact that your company also uses other incentives in the comment box.

Each employee group should only be selected once.

When you select an incentive for a certain employee group, it is not necessary for all employees in this group to be entitled to benefit from this incentive. For example, you can select the category "Business Unit Managers" even if only one manager is entitled to the incentive.

Supporting evidence:

- This question requires supporting evidence from the public domain. The information provided has to be included in your public reporting (e.g., annual report, sustainability report, integrated report, company publications, separate fuel efficiency strategy document) or corporate website.
- Any response that cannot be verified in the attached public document(s) will not be accepted.
