Environmental Management Systems Verification

Question

Does the company publicly report on whether its Environmental Management System (EMS) is certified, audited, or verified?

Rationale

A verified/audited EMS reflects a company's internal and external commitment towards the monitoring of environmental data. Further, the verification process can facilitate improvements to a company's EMS, improving efficiency and coverage. Our question on audit verification focuses on identifying whether the company has implemented, verified and certified its environmental management system to ensure the credibility of the procedures and systems in place.

Performance Summary	
Question Level Company Performance	0
Question Weight	30
Year-on-Year Change	(70)
Industry Average Score	26
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Data Requirements

Please note that the total coverage for all three alternatives should not exceed 100 % - to avoid double-counting, for the parts of your operations with multiple certifications/types of verification, only mark one of the three options: indicating the coverage of international standards first, followed by third-party verification and then internal verification.

Coverage should be relative to global operations and not only a single subsidiary, region or site.

Please also note that verification only pertains to your Environmental Management Systems, not the verification of environmental data or reporting.

NOTE:

- We accept RC 14001 for marking - EMS verified through international standards
- We do not accept ISO 50001, LEED or ISO 14064 or any other certification of energy or GHG management or product specific verification/certification.

Supporting evidence:

- This question requires supporting evidence from the public domain. The information provided has to be included in your public reporting (e.g., annual report, sustainability report, integrated report, company publications, separate fuel efficiency strategy document) or corporate website.
- Any response that cannot be verified in the attached public document(s) will not be accepted.

Standards & Frameworks

CSRD - E1-2 25(e) AR 16-AR 18, E1-3 28

EU Taxonomy - Multiple Objectives & Activities - Substantial Contribution & DNSH

IRIS+ - OI1254, PD2756

Data View

QUESTION LEVEL INPUT	COMPANY ANSWER
Certification, audit or verification of company's Environmental Management System (EMS)	Not measured
Coverage of standardized Environmental Management System (EMS) verification expressed as a percentage of the coverage unit defined	Not measured
Coverage of external verification of Environmental Management System (EMS) expressed as a percentage of the coverage unit defined	Not measured
Coverage of internal verification of Environmental Management System (EMS) expressed as a percentage of the coverage unit defined	Not measured
Company's EMS is third-party certified, audited or verified by specialized companies	Not measured
Company's EMS is certified, audited or verified by company's own specialists from headquarters	Not measured
Company's EMS is verified through international standards (e.g. ISO 14001, JIS Q 14001, EMAS certification)	Not measured

Questionnaire

Please indicate how your Environmental Management System (EMS) is certified / audited / verified and indicate the coverage of this verification for the selected standard. Please indicate where this information is available in your **public reporting** or **corporate website**.

Please note that the total coverage for all three alternatives should not exceed 100% - to avoid double-counting, for the parts of your operations with multiple certifications/types of verification, only mark one of the three options: indicating the coverage of international standards first, followed by third-party verification and then internal verification. Coverage should be relative to global operations and not only a single subsidiary, region or site. **Please also note that the requested verification only pertains to your Environmental Management System(s), not to your environmental data or reporting.**

1. ○

   Our Environmental Management System (EMS) is certified / audited / verified and the information is **publicly available.**

   Please indicate what the coverage figures below are based on (e.g. % of group-wide operations, group-wide revenues, group-wide production sites, total employees, etc.):

Certification / Audit / Verification	Coverage (%)	Examples of Certification documents

1. ☐

   EMS is verified through international standards (e.g. ISO 14001, JIS Q 14001, EMAS certification). Please specify:[Not measured
