Business Impacts of Water Related Incidents

Question

Has the organization been subject to any water-related incidents (operation interruptions/plant closures etc.) with substantial (more than 10,000 USD) impacts on costs/revenues in the last four fiscal years? If yes, please provide the total cost or income losses in the table below. If the company didn't have any water-related incidents with a financial impact above 10,000 USD, please fill in "0." If the company is unable to report the exact numbers for some years, leave those years empty. If the company is unable to provide the exact numbers for all four years, please mark "Not known".

Rationale

Companies increasingly face water related risks in many of the regions in which they operate. With this question, we assess the effectiveness of a company's water risk management by evaluating the rate of several types of negative incidents over time and their impact on business operations.
