Reporting on Breaches

Question

Does the company publicly report on breaches of the code of conduct for the last financial year?

Rationale

Organizations are increasingly expected by the marketplace, international norms, and stakeholders to demonstrate their adherence to integrity, governance, and good business practices. Reporting to authorities is mandatory in many countries but our questions are looking for evidence of transparent corporate reporting to all stakeholders. This question assesses the transparency a company shows in relation to breaches of its codes of conduct or anti-corruption & bribery policies towards its stakeholders, both for the occurrence of incidents as well as the company's response.

Performance Summary	
Question Level Company Performance	60
Question Weight	20
Year-on-Year Change	(40)
Industry Average Score	26
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

Customer Data Privacy: Data breach relative to the customer. This can be defined as the accidental or unlawful destruction, loss, alteration, unauthorized disclosure of, or access to, personal data transmitted, stored, or otherwise processed. This can include, but is not limited to, the disclosure of customer personally identifiable information, theft of customer financial information, healthcare data and more.

Data Requirements

Disclosure on various aspects of code of conduct related breaches is assessed in this question such as Corruption, Discrimination, Privacy, Insider Trading etc. Filings to authorities that are not publicly available to all stakeholders will not be considered here.

If the company discloses just the total number of breaches for all aspects of the code of conduct (Without breakdown) then the second option 'We report on total number of cases/breaches but do not report on specific areas' should be selected.

In case, while reporting a company has clubbed some areas of breaches then the third option, 'We report breaches on a combined basis, but only for **some areas** in the Code of conduct' will be marked.

If there were no code of conduct breaches, the fourth option "We report that no Codes of Conduct related breaches have occurred during the most recent reporting cycle" should be chosen and indicate where this is publicly reported.

The absence of breaches needs to be publicly disclosed for the purpose of this question and an indication of where this is publicly reported should be given. A comment indicating that no breaches occurred and that reporting would have been available in the event of such breaches occurring is not sufficient for this question.

Supporting evidence

- This question requires supporting evidence from the public domain. The information provided has to be included in your public reporting (e.g., annual report, sustainability report, integrated report, company publications or corporate website).
- Any response that cannot be verified in the attached public document(s) will not be accepted.
