Workforce Breakdown: Gender

Question

Does the company monitor the following indicators regarding workforce gender diversity?

Rationale

We assess various labor key performance indicators (KPIs) of an organization to determine not only the quality but also the transparency of its reporting on diversity issues. Gender diversity can improve a company's performance as it increases the likelihood of bringing people with different types of knowledge, views and perspectives together. This diversity results in better innovative and problem-solving skills, improves talent attraction and retention, increases employee engagement, and results in higher efficiency. Several initiatives have already been taken by shareholders and governments to increase the share of women in the workforce and leadership positions. Therefore, companies who are early adopters of inclusive hiring and retention practices will benefit from positive recognition and lower compliance costs in the future.

This question specifically assesses workforce gender diversity by asking about the proportion of women at different levels of responsibility. We expect companies to also commit to gender balance across the talent pipeline by setting targets for the levels of representation where they face the greatest challenges. This question looks at the companies' ability to disclose this data, as well as its performance compared to its industry peers and its ability to retain women talent.

Performance Summary	
Question Level Company Performance	93
Question Weight	15
Year-on-Year Change	3
Industry Average Score	37
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

The definitions provided below are guidelines that should be followed as closely as possible. If a different definition is used, this should be explained, and a consistent definition should be used in any other questions that may require information about organizational structures.

Gender identity: Each person's deeply felt internal and individual experience of gender. This may or may not correspond to the sex assigned at birth. Gender identity includes the personal sense of the body (which may involve, if freely chosen, modification of bodily appearance or function by medical, surgical or other means) and other expressions of gender, including dress, speech and mannerisms (European Institute for Gender Equality). In this question, we refer to employees who self-identify as women.

Management positions: This refers to all levels of management, including junior, middle and senior level management.

Junior management positions: Refer to first-line managers, junior managers and the lowest level of management within a company's management hierarchy. These individuals are typically responsible for directing and executing day-to-day operational objectives of organizations, conveying the directions of higher-level officials, and managingerings to subordinate personnel.

Middle management positions: Refer to managers who head specific departments (such as accounting, marketing, production) or business units, or who serve as project managers in flat organizations. Middle managers are responsible for implementing top management's policies and plans and typically have two management levels below them.

Top management positions: Refer to management positions with a reporting line at most two levels away from the CEO. They include individuals who plan, direct and formulate policies; set strategy; and provide the overall direction of enterprises/organizations for the development and delivery of products or services, within the parameters approved by boards of directors or other governing bodies.

Revenue-generating functions: Refer to line management roles in departments such as sales, or that contribute directly to the output of products or services. It excludes support functions such as human resources (HR), IT and legal. May also be referred to as roles that have profit and loss (P&L) responsibility.

STEM: Science, technology, engineering and mathematics. To be classified as a STEM employee, the employee should have a STEM-related qualification and make use of these skills in their operational position. Positions include, but are not limited to: Computer programmer, web developer, statistician, logistician, engineer, physicist and scientist.

Coverage: Corresponds to the scope of the data reported on. For example, if a company only reports on its employees in one country, and these employees represent X% of the total workforce, then the company should select the bracket which includes this X%. Please use consistent coverage for all indicators.

Data Requirements

Disclosure requirements for partially public question. Additional credit will be granted for relevant publicly available evidence covering each of the following aspects of this question:

- Women in the total workforce
- Women in all management positions
- Women in junior management positions
- Women in top management positions
- Women in revenue-generating positions
- Women in STEM-related positions

We expect companies to have set **at least one public target** for one representation level in order to meet our requirements for the targets. We do not expect companies to have public targets for each level of representation, but only for one level. This target needs to be publicly available or will not be considered as relevant in the scoring of this question.

Please note: If you have less than 100 employees or no employees in your organization, then **please mark the question as "Not applicable"**.

Share of women in STEM-related positions (as % of total STEM positions) is public	YES
Target share of women in STEM-related positions (as % of total STEM positions) is public	-

Questionnaire

Does the company monitors the following indicators regarding workforce gender diversity? If so, please complete the table. Please provide the coverage reported on as a percentage of FTEs and attach supporting public evidence where indicated if available.

Please also indicate whether the company has set a public target for women representation. We expect companies to have set at least one public target for one representation level in order to meet our requirements for the targets. We do not expect companies to have targets for each level of representation.

1. ●

Yes, the company monitors the following indicators:

Please select the coverage of the data reported on as a % of FTEs:

>75% of FTEs

Diversity Indicator	Percentage (0 - 100 %)	Public Target
Share of women in total workforce (as % of total workforce)	24 1. ☑ Public reporting available:	Not answered Target year: Not answered 1. ☐ Public reporting:
Share of women in all management positions, including junior, middle and top management (as % of total management positions)	29.4 1. ☑ Public reporting available:	40 Target year: 2030 1. ☑ Public reporting:
Share of women in junior management positions, i.e. first level of management (as % of total junior management positions)	28 1. ☑ Public reporting available:	Not answered Target year: Not answered 1. ☐ Public reporting:

Share of women in top management positions, i.e. maximum two levels away from the CEO or comparable positions (as % of total top management positions)	27 1. ☑ Public reporting available:	Not answered Target year: Not answered 1. ☐ Public reporting:
Share of women in management positions in revenue-generating functions (e.g. sales) as % of all such managers (i.e. excluding support functions such as HR, IT, Legal, etc.)	19 1. ☑ Public reporting available:	Not answered Target year: Not answered 1. ☐ Public reporting:
Share of women in STEM-related positions (as % of total STEM positions)	23 1. ☑ Public reporting available:	Not answered Target year: Not answered 1. ☐ Public reporting:

2. ○

No, the company does not monitor the gender breakdown of its workforce.

3. ○

Not applicable. Please provide explanations in the comment box below.
