TCFD Disclosure

Question

Does the company integrate the TCFD framework in the management of climate-related risks and opportunities?

Rationale

This question focuses on whether a company applies the framework of the Task Force on Climate-related Financial Disclosures (TCFD) or the succeeding International Sustainability Standards Board's (ISSB) IFRF S2 standards in the reporting of climate-related risks and opportunities. Demand for climate-related disclosure from investors has increased significantly since the release of the TCFD's recommendations in 2017. In addition, public sector leaders have noted the importance of transparency on climate-related issues within financial markets. Many national governments and public sector organizations formally support the TCFD/ ISSB,and some countries have announced mandatory disclosure requirements aligned with these standards. In the EU, the mandatory European Sustainability Reporting Standards (ESRS) are also embedded in the four core recommendations of TCFD/ISSB.

Delays in applying the TCFD/ISSB framework may not only result in missing the expectations of investors but in compliance costs.

Performance Summary	
Question Level Company Performance	25
Question Weight	3
Year-on-Year Change	(75)
Industry Average Score	41
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Data Requirements

The company may also provide reports that are aligned with ISSB's International Financial Reporting Sustainability Disclosure Standard 2 (IFRS S2) since it is consistent with the four core recommendations and eleven recommended disclosures published by TCFD.

In case the company's report is aligned with EU ESRS, a reference or a mapping table to TCFD/ISSB is expected.

Disclosure Requirements

This question requires public evidence. Please indicate where in your public reporting you report information about applying the TCFD/ISSB framework

Data View

QUESTION LEVEL INPUT	COMPANY ANSWER
Company integrates the TCFD framework in its risk management	In the process
Company's time frame to fully integrate the TCFD framework	Not answered
Describe the board's oversight of climate related risks and opportunities.	Not answered
Describe management's role in assessing and managing climate-related risks and opportunities.	Not answered
Describe the climate-related risks and opportunities the organization has identified over the short, medium, and long term.	Not answered
Describe the impact of climate-related risks and opportunities on the organization's businesses, strategy, and financial planning.	Not answered

Disclose Scope 1, Scope 2, and if appropriate Scope 3 greenhouse gas (GHG) emissions, and the related risks.	Not answered
Describe the targets used by the organization to manage climate-related risks and opportunities and performance against targets.	Not answered

Questionnaire

Does the company integrate the TCFD framework in the management of climate-related risks and opportunities?

1. ○

   Yes, the company integrates the TCFD framework in the management of climate-related risks and opportunities. Please indicate where this information is available in **public reporting or corporate website.**

   Governance

   1. ☐

      a) Describe the board's oversight of climate related risks and opportunities.

   2. ☐

      b) Describe management's role in assessing and managing climate-related risks and opportunities.

   Strategy

   1. ☐

      a) Describe the climate-related risks and opportunities the organization has identified over the short, medium, and long term.

   2. ☐

      b) Describe the impact of climate-related risks and opportunities on the organization's businesses, strategy, and financial planning.

   3. ☐

      c) Describe the resilience of the organization's strategy, taking into consideration different climate-related scenarios, including a 2°C or lower scenario.

   Risk management

   1. ☐

      a) Describe the organization's processes for identifying and assessing climate-related risks.

   2. ☐

      b) Describe the organization's processes for managing climate-related risks.

   3. ☐

      c) Describe how processes for identifying, assessing, and managing climate-related risks are integrated into the organization's overall risk management.

   Metrics & Targets

   1. ☐

      a) Disclose the metrics used by the organization to assess climate-related risks and opportunities in line with its strategy and risk management process.

   2. ☐

      b) Disclose Scope 1, Scope 2, and if appropriate, Scope 3 greenhouse gas (GHG) emissions, and the related risks.

   3. ☐

      c) Describe the targets used by the organization to manage climate-related risks and opportunities and performance against targets.

2. ●

   No, the company does not integrate the TCFD framework but publicly commits to integrating its requirements. Please indicate when it plans to disclose these requirements.

   Please select

3. ○

   No, the company does not integrate the TCFD framework in the management of climate-related risks and opportunities.

4. ○

   The question is not applicable to the company.
