Question: Water Consumption
Include Modeled Scores : Yes

Water Consumption

Question

Does the company track its freshwater consumption, including water withdrawal and discharge?

Rationale

Water is becoming increasingly scarce, and such scarcity poses a considerable risk to many sectors. Considering water withdrawal, consumption and discharge practices can enhance companies' competitiveness by reducing costs and environmental liabilities. It can also mean companies are better prepared for future environmental regulations.

Performance Summary	
Question Level Company Performance	74
Question Weight	26
Year-on-Year Change	(26)
Industry Average Score	35
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

Water withdrawal (excluding saltwater): Water withdrawal is defined as the sum of:

i. Fresh surface water, including rainwater, water from wetlands, rivers and lakes

ii. Groundwater – renewable and non-renewable

iii. Produced/entrained water

iv. Third party sources

Fresh surface water: Fresh surface water, including rainwater, water from wetlands, rivers, lakes and fresh water that requires minimal treatment to be acceptable for domestic or agricultural uses.

Groundwater - renewable and non-renewable: Groundwater that can be recovered from underground.

Produced/entrained water: Produced water, reinjected produced water.

Third party sources: Municipal water, local third-party water purchase, city water from public water department, trucked water purchased, tap water and reclaimed water.

Water discharge (excluding saltwater): The water leaving the organization's boundary and being released to surface water, groundwater or third parties during the reporting year.

Total net fresh water consumption: Water withdrawal (excluding saltwater) – water discharge (excluding saltwater).

Data Requirements

For each row in the table, it is mandatory that the values are provided in the same unit.

If the company is reporting on brackish surface water/seawater/saltwater, please deduct it from water withdrawal and water discharge, because we want to capture only total net fresh water consumption.

Third-party verification: For third-party verification, we expect that data in the most recent year reported has been third-party verified and that relevant documentation is attached showing this verification. Internal audits or verification will not be considered.

Please note: If the company **has reported a value of zero** in the table, third-party verification or supporting evidence is required (e.g., comprehensive comment, internal documentation or public reporting) to substantiate the zero reported.

Please note: In cases where the company is classified within the **Banks (BNK)**, **Financial Services (FBN)**, **Insurance (INS)**, or **Professional Services (PRO)** industries, the score obtained in this question will not contribute to the final score of the company.

MUW: This question should be marked "The question is not applicable to the company" for utilities generating more than 50% of their revenues from drinking water supply, distribution or wastewater treatment.

Data Consistency

- If the environmental performance data reported in the questionnaire does not correspond to publicly reported figures, the corresponding option should be marked and the discrepancy should be explained. This option should not be indicated if the information is not publicly reported at all.

Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

- If there is a temporary reduction in coverage due to, for example, a major acquisition, the corresponding box should be marked and the reduction explained.
- If it is not possible to report the figures in absolute terms, the data should be reported in relative terms, and the corresponding box should be ticked. Please note that information should always be reported in absolute terms if possible, even if it deviates from public reporting.

General Data Requirements

Environmental performance data should cover the activities of the entire company, with the same consolidation as used in financial reporting, and it must refer to the financial year (e.g., 01/01 to 31/12 for both financial and environmental data) and be aligned with the figures reported in the Company Information section.

Target: We require the absolute target for the most recent reporting year. If your company has a multiple year and/or relative target, please extrapolate what the target value would have to be for the last financial year to make sure you are progressing well towards achieving the target by the end of the target period.

In particular, environmental data of group companies should follow these rules:

- Environmental data of companies that are consolidated proportionally must be considered in proportion to how they are consolidated financially.
- Environmental data of companies that are fully consolidated must be fully considered irrespective of the proportion to which they belong to the group.
- Environmental data of business travel other than by an owned and/or operated fleet should not be included unless specifically asked for.
- Environmental data should refer to the specific company structure of each particular year. There should be no pro forma backward consolidation of the current company structure.
- Environmental data of companies that are sold or no longer consolidated should be excluded from environmental data as of the reporting period in which the company was no longer consolidated.
- Environmental data of companies that have been bought should only be included as of the reporting period in which the company was consolidated financially for the first time.
- Where environmental data does not cover all consolidated activities of the company, the scope should be indicated together with the environmental data that is known.
- Where the reported environmental data deviates from these definitions, you are asked to explain in what way the data provided differs from the definitions.
- If a company publicly reports on long-term but not annual targets, an annual target must be estimated based on internal target setting or a linear distribution.
- The data must be provided in the unit indicated in the question. If the company is tracking the specific indicator in a different unit, the unit converter must be used to convert the data into the preferred unit.
- Please ensure that the Company Information section has been filled in correctly and that the coverage in the table below is based on the same denominator.

Disclosure Requirements

Disclosure requirements for a partially public question. Additional credit will be granted for relevant publicly available evidence covering the following aspect of this question:

- Total net fresh water consumption for at least the most recent reported year.

Data View

QUESTION LEVEL INPUT	COMPANY ANSWER
Company's total net fresh water consumption, including data for fresh water extraction and consumption available	Applicable
Discharge: Water returned to the source of extraction at similar/higher quality as raw water extracted (2022) (Million mÂ³)	0.370
Discharge: Water returned to the source of extraction at similar/higher quality as raw water extracted (2023) (Million mÂ³)	0.310
Discharge: Water returned to the source of extraction at similar/higher quality as raw water extracted (2024) (Million mÂ³)	0.430
Discharge: Water returned to the source of extraction at similar/higher quality as raw water extracted (2025) (Million mÂ³)	0.460
Total net fresh water consumption excluding saltwater from water withdrawal and water discharge (2022) (Million mÂ³)	5.850
Total net fresh water consumption excluding saltwater from water withdrawal and water discharge (2023) (Million mÂ³)	5.590
Total net fresh water consumption excluding saltwater from water withdrawal and water discharge (2024) (Million mÂ³)	5.990
Total net fresh water consumption excluding saltwater from water withdrawal and water discharge (2025) (Million mÂ³)	5.820
Water Consumption target for last fiscal year reported (Million mÂ³)	Not answered
Water Consumption: Data Coverage (2022)	100
Water Consumption: Data Coverage (2023)	100
Water Consumption: Data Coverage (2024)	100
Water Consumption: Data Coverage (2025)	100
Public reporting: Water consumption data is publicly available	YES
Water consumption data has been verified by a third-party for the most recent fiscal year	YES
Data consistency: Water consumption data reported in the questionnaire differs from publicly available data	-
Data consistency: Temporary coverage reduction or target challenge in water consumption data due to corporate actions	-
Data consistency: Water consumption data is not reported in absolute terms and is normalized	-
Total amount of water withdrawn (2022) (Million mÂ³)	6.220
Total amount of water withdrawn (2023) (Million mÂ³)	5.900
Total amount of water withdrawn (2024) (Million mÂ³)	6.430

Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

QUESTION LEVEL INPUT	COMPANY ANSWER
Total amount of water withdrawn (2025) (Million mÂ³)	6.280

Questionnaire

Does the company track its freshwater consumption, including water withdrawal and discharge?

1. (●)

   Yes, the company tracks its freshwater consumption, including water withdrawal and discharge. Please indicate where this information is available.

Water	Unit	FY 2022	FY 2023	FY 2024	FY 2025	Target for FY 2025
A. Water withdrawal (excluding saltwater)	Million cubic meters	6.22	5.9	6.43	6.28	
B. Water discharge (excluding saltwater)	Million cubic meters	0.37	0.31	0.43	0.46	
Total net fresh water consumption (A-B)	Million cubic meters	5.85	5.59	5.99	5.82	Not answered
Coverage (as a percentage of denominator)	percentage of:	100	100	100	100	

   1. [x] The data is publicly available.
   2. [x] The data has been third-party verified.
   3. [ ] The data is normalized.
   4. [ ] The data differs from its publicly reported figures. Please provide an explanation:
   5. [ ] The coverage is temporarily reduced due to corporate actions. Please provide an explanation:

2. ( ) No, the company does not track its freshwater consumption, including water withdrawal and discharge.
3. ( ) The question is not applicable to the company.
4. ( ) The information is not available.
