CaliBagels Inc. and Thomas'® Brand Partner to Launch Nationwide Line of Thomas'-Branded Deli Style Bagel Chips

PR Newswire
Wednesday, September 3, 2025, 8:34:00 AM EDT

LA JOLLA, Calif., Sept. 3, 2025 /PRNewswire/ -- *CaliBagels Inc.* today announced an exclusive licensing agreement with *Thomas'*®, the iconic breakfast bread brand owned by *Bimbo Bakeries USA*, to develop, manufacture, and distribute **Thomas' branded Deli Style Bagel Chips** across the United States.

Under the terms of the partnership, CaliBagels will bring Thomas' trusted name and signature bagel flavor profiles to the snack aisle in 2026 with a lineup of bold, crispy bagel chips. The initial flavor offerings will reflect the most loved flavors in Thomas' bagel and breakfast bread portfolio.

> "Thomas' is a brand that consumers know and trust, and this partnership allows us to bring their powerful equity into a new, fast-growing snack format," said Philip Gorman, CEO of CaliBagels Inc. "We're excited to lead the way with a chip that starts with real bagel flavors and delivers the authentic Thomas' experience in every bite."

A Legacy of Leadership in the Breakfast Aisle

Thomas' has been a staple of American breakfast tables for over 140 years. Best known for its iconic English Muffins—ranked No. 1 in sales nationwide—the brand also leads the U.S. market in **grocery store bagel sales**, holding the top position in the refrigerated and pre-packaged bagel category across most major grocery chains.

With unmatched brand recognition and consumer loyalty, Thomas' brings scale and credibility to the bagel chip segment—a category that continues to grow as consumers seek more flavorful and satisfying snack options. By pairing CaliBagels' manufacturing expertise and innovation with Thomas' national footprint and reputation, the partnership is positioned to drive incremental growth at retail and create a new standard in the premium snack category.

From Breakfast to Snack Time

The launch of Thomas' Deli Style Bagel Chips builds on the brand's strong breakfast identity while expanding its presence into the snack and deli aisles. Sliced thicker and baked for crispiness, the chips deliver a texture and taste that mirrors Thomas' bagels—offering familiar flavor, quality, and comfort in a new, convenient format.

"We are excited about this partnership, which extends Thomas' beloved variety of offerings and empowers our brand to reach beyond the breakfast table," says Nicole Kane, VP & GM, Breakfast Category, for Thomas'.

The chips will be distributed nationally through grocery, mass retail, and specialty channels beginning in 2026, with expanded flavor innovations and formats expected later in the year.

About CaliBagels Inc.

CaliBagels Inc. is a food innovation company focused on bringing bold, bagel-inspired snacks to market.
