Canada Bread Reports Results for First Quarter 2009

Toronto, Ontario – April 29, 2009… Canada Bread Company, Limited (TSX: CBY) today reported its financial results for the first quarter ended March 31, 2009.

- Adjusted Operating Earnings increased 9% to $21.4M compared to last year
- Adjusted Earnings per Share increased to $0.60 from $0.52
- Net earnings per share of $0.59 compared to $0.48 last year

Note: Adjusted Operating Earnings are defined as earnings from operations before restructuring and other related costs and other income. Adjusted Earnings per Share ("Adjusted EPS") are defined as basic earnings per share adjusted for the impact of restructuring and other related costs.

"In line with the trend experienced late in 2008, the first quarter of 2009 continued to demonstrate a return to more stable and improved earnings, although margins were impacted by a decline in the Canadian dollar and its effect on wheat costs," said Richard Lan, President and CEO. "The improvement in the first quarter reflects actions we have taken to improve business efficiencies and pass through higher input costs as required. A higher value sales mix also contributed to results, and we continue to focus on innovation to provide consumers with appealing new product choices and accelerate growth."

Financial Overview

Sales for the first quarter increased 7.9% to $413.1 million compared to $382.9 million in the same period last year. Excluding acquisitions, sales increased by 5.3%, mostly as a result of price increases implemented across all North American bakery businesses in 2008 in response to escalating input costs and product mix improvements in the Fresh Bakery operations.

Earnings from operations before restructuring and other related costs ("Adjusted Operating Earnings") increased 9.2% to $21.4 million compared to $19.5 million last

year. Net earnings for the quarter increased to $14.9 million compared to $12.2 million last year.

The following is a summary of Adjusted EPS:

	First Quarter

EPS	**$0.59**	$0.48

Business Segment Review

Following is a summary of Adjusted Operating Earnings by business segment:

	First Quarter		
($ millions)	**2009**	2008	Change
Fresh Bakery	**$12.8**	$12.7	1.0%
Frozen Bakery	**8.5**	6.9	24.5%
	$21.4[(i)]	$19.5[(i)]	9.2%

Fresh Bakery *(Fresh bakery products, sweet goods, sandwiches, and specialty fresh pasta and sauces)*

Fresh Bakery sales in the first quarter increased 10.9% to $263.0 million compared to $237.2 million last year mainly due to price increases taken in the first half of 2008, favourable sales mix and acquisitions. Excluding acquisitions, sales in Fresh Bakery increased 6.6% to $252.9 million.

Adjusted Operating Earnings in the quarter increased to $12.8 million compared to $12.7 million in the prior year. Price increases implemented in the first half of 2008, and better sales mix in the Fresh bakery operations and pasta business were the main contributors to improved margins in the quarter. Fresh Bakery margins recovered closer to long-term historical levels; however, margin recovery was partially mitigated by the weakening of the Canadian dollar which impacted the price of wheat in the first quarter of 2009. Additionally, prices for packaging and other ingredients remained higher than last year.

Fresh Bakery increased its investment in marketing and promotional activities in the first quarter of 2009 to support, among others, the national launch of Healthy Way® with ProCardio Recipe™ breads and fresh squares. Healthy Way® with ProCardio Recipe™ breads and fresh squares are the first line of Fresh Bakery products specifically targeting the heart health segment and broaden Dempster's® brand

leadership in higher nutrition bakery products.

Frozen Bakery *(North American and U.K. frozen bakery products; including frozen par-baked and specialty bakery products)*

Frozen Bakery sales for the quarter increased by 3.1% to $150.1 million from $145.6 million in the same period last year, driven mainly by price increases implemented in North America in 2008.

Adjusted Operating Earnings in the quarter increased to $8.5 million compared to $6.9 million in the first quarter of 2008. Earnings in the North American frozen bakery operations increased due to a combination of price increases implemented in 2008 and increased operational efficiencies. Lower distribution costs, the commissioning of the new bagel line in Roanoke, Virginia, in the first quarter of 2009 and the closure of the bagel facility in Toronto, Ontario, late in 2008 contributed to the operational improvements. Management is focused on achieving further efficiencies as the bagel line in Roanoke reaches planned production levels.

Earnings in the U.K. bakery operations declined in the quarter compared to last year due to a lower margin product mix as the effect of the economic recession has been more pronounced in the U.K. than in the Company's other operations. Also, increased promotional costs to restore bagel volumes reduced earnings. The bagel production line at the Rotherham plant continued to ramp up during the quarter, after a major oven fire that disrupted production through most of 2008. Production is now stabilized and Management is focused on increasing volumes to full capacity.

Other Income

In the first quarter of 2009, the Company received insurance proceeds of $1.7 million (recorded in Other Income), mostly to cover business interruption losses and operating impacts resulting from the oven fire in the U.K. in 2008.

Other Matters

On April 28, 2009, Canada Bread Company, Limited declared a dividend of $0.06 per share payable on July 2, 2009 to shareholders of record on June 5, 2009.
