## Canada Bread Reports Results for the Third Quarter 2011

Toronto, Ontario – October 27, 2011…Canada Bread Company, Limited (TSX: CBY) today reported its financial results for the third quarter ended September 30, 2011. Third quarter highlights include:

- Adjusted Operating Earnings[(1)] of $31.8 million were consistent with last year.
- Adjusted EPS[(2)] increased to $1.24 (2010: $0.87), including $0.38 per share of a tax adjustment for a prior acquisition.
- Net earnings were $30.3 million, and included $1.6 million in pre-tax restructuring and other related costs related to network optimization initiatives, compared to $14.3 million last year.

"While our volumes increased in the quarter we continue to feel the impact of high raw material costs, which we largely offset through cost reductions and improved operating efficiencies," said Richard Lan, President and CEO. "We had excellent success with the commissioning of our new scale fresh bakery in Hamilton, Ontario in July, a major endeavour which was executed seamlessly – on time and on budget. Our U.K. business is also benefiting from manufacturing changes to focus on core categories and increase profitability. As commodity markets stabilize, we will continue to seek opportunities to drive volume and margin growth through reduced costs, innovation and product sales mix."

*(1): Adjusted Operating Earnings are defined as earnings from operations before restructuring and other related costs and other income (expense).*

*(2): Adjusted Earnings per Share ("Adjusted EPS") are defined as basic earnings per share adjusted for the impact of restructuring and other related costs, net of tax.*

*Please refer to the section entitled Reconciliation of Non-IFRS Financial Measures in this news release.*

## Financial Overview

Sales for the third quarter increased to $417.2 million compared to $411.4 million last year. After adjusting for the sale of the Company's fresh sandwich product line in February 2011 and currency translation on U.K. and U.S. sales from a stronger Canadian dollar, sales increased by 5% compared to last year, mostly due to price increases implemented in the first half of 2011.

Adjusted Operating Earnings for the third quarter were $31.8 million compared to $32.8

million in the prior year. The Company experienced some margin compression, as price increases implemented earlier in the year were not sufficient to fully offset the impact of a continued rise in raw material costs. Reduced costs resulting from operating efficiencies and lower selling, general and administrative expenses helped mitigate this impact.

Adjusted Earnings per Share for the third quarter increased to $1.24 from $0.87 last year, and included $9.8 million ($0.38 per share) related to a tax adjustment associated with a prior acquisition.

## Fresh Bakery

*Includes fresh bakery products, including breads, rolls, bagels, sweet goods, and fresh pasta and sauces sold to retail, foodservice and convenience channels. It includes national brands such as Dempster's® and Olivieri® and many leading regional brands.*

Fresh Bakery sales for the third quarter of $287.9 million were largely consistent with last year. After adjusting for the sale of the Company's fresh sandwich product line, sales increased 5%, primarily benefiting from price increases implemented in the first half of 2011. Sales volumes in Fresh Bakery improved slightly due to increased retail sales volumes.

Adjusted Operating Earnings were $29.2 million compared to $30.6 million last year. During the quarter, margin compression resulting from price increases implemented in the first half of 2011 that were not sufficient to fully offset the continued rise in wheat cost was largely mitigated by cost reduction initiatives and lower promotional expenses. During the quarter the Company also benefited from the sale of its fresh sandwich product line in February 2011.

During the quarter, the Fresh Bakery business recorded approximately $2.3 million of duplicative overhead costs, as the Company continues to operate three sub-scale bakeries

as it gradually transitions production to its newly commissioned fresh bakery in Hamilton, Ontario, which officially opened on September 28, 2011. Production lines for rolls and breads are now in operation, and another two lines are planned to start commercial production by the end of 2011. The final four lines, including flat breads, are planned for 2012. The Company plans to gradually transfer production from three bakeries in the Greater Toronto Area, and proceed with their closures between the end of 2011 through to early 2013.

## Frozen Bakery

*Includes frozen bakery products, including frozen par-baked bakery products, specialty and artisan breads, and bagels sold to retail, foodservice and convenience channels in North America and the U.K. It includes national brands such as Tenderflake® and New York Bakery Co™.*

Frozen Bakery sales for the third quarter increased 3% to $129.2 million from $126.1 million last year. After adjusting for the impact of currency translation on sales in the U.S. and U.K., sales increased 5%, predominantly as a result of price increases implemented earlier in 2011. Sales volumes were slightly lower than last year, mainly due to a modest decline in North American frozen bakery sales volumes. In the U.K. operations, sales volumes increased benefiting from continued growth in bagel sales.

Adjusted Operating Earnings in Frozen Bakery for the third quarter increased to $2.6 million from $2.1 million last year largely driven by improved margins in the U.K. bakery operations. Earnings benefited from price increases implemented during the first half of the year and efficiency gains from the closure of the North American frozen bakery in Laval, Quebec, as well as the consolidation of production in the U.K. These benefits were partly offset by the impact of higher raw material costs.

## Other Matters

On October 26, 2011 Canada Bread Company, Limited declared a dividend of $0.20 per share payable on January 3, 2012 to shareholders of record at the close of business on December 8, 2011. Unless indicated otherwise by the Company in writing on or before the time the dividend is paid, these dividends will be considered an eligible dividend for the purposes of the “Enhanced Dividend Tax Credit System”.

## Reconciliation of Non-IFRS Financial Measures

The Company uses the following non-IFRS measures: Adjusted Operating Earnings and Adjusted EPS. Management believes that these non-IFRS measures provide useful information to both Management and investors in measuring the financial performance of the Company for the reasons outlined below. These measures do not have a standardized meaning prescribed by IFRS and therefore they may not be comparable to similarly titled measures presented by other publicly traded companies and should not be construed as an alternative to other financial measures determined in accordance with IFRS.

### *Adjusted Operating Earnings*

The following table reconciles earnings from operations before restructuring and other related costs and other income (expense) to net earnings as reported under IFRS in the

unaudited condensed consolidated interim statements of earnings for the three month periods ended as indicated below.
