GRUPO BIMBO
REPORTS SECOND
QUARTER
2021 RESULTS

"I am more than proud that our teams reached record profits for a second quarter and Net Sales growth of 6.6%, excluding FX effect. We continue to see strong demand and extraordinary run rates in our core business, we held and grew market share across our key categories and saw a recovery of those channels and categories that suffered during the pandemic. As we move forward, we will continue to invest in our associates, our brands, in the entire value chain, in our sustainability strategy and in our digital transformation projects to achieve our Vision."

-Daniel Servitje, Chairman and CEO

"This second quarter was remarkable, despite tough comparisons and the FX translation effect, we reached record profits and our Return on Equity expanded by 280 basis points. We strengthened our balance sheet by improving our amortization profile and were able to generate strong cash flow."

-Diego Gaxiola, CFO
