Question: Sustainable Agriculture Commitment
Include Modeled Scores : Yes

Sustainable Agriculture Commitment

Question

Does the company have a commitment on sustainable agriculture and is it available publicly?

Rationale

Because of the high pressure that industrialized agriculture puts on ecosystems to provide enough high quality agricultural raw materials, it is important for companies to create comprehensive guidelines and standards in order to preserve and not ruin the resources on which they depend. Through this question we ascertain what guidelines and standards the company has implemented to promote sustainable agriculture practices.

Performance Summary	
Question Level Company Performance	98
Question Weight	17
Year-on-Year Change	0
Industry Average Score	12
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.
