Water Risks Management of Suppliers

Question

Does the company collaborate with critical tier 1 suppliers located in water-stressed areas to minimize water risks?

Rationale

It is in the best interest of companies that their critical Tier 1 suppliers are aware of and manage water-related risks as an effective risk management measure. With this question, we assess the degree of co-operation between companies and tier 1 suppliers in managing various water-related risks.

Performance Summary	
Question Level Company Performance	36
Question Weight	15
Year-on-Year Change	36
Industry Average Score	24
Industry Highest Score	100

Key Definitions

Critical suppliers are defined by us as suppliers whose goods, materials, services (including intellectual property (IP) / patents) have a significant impact on the competitive advantage, market success or survival of the company. Critical suppliers include high-volume suppliers, suppliers of critical components and non-substitutable suppliers.

Tier 1 suppliers refers to suppliers that directly supply goods, materials or services (including intellectual property (IP) / patents) to the company.

References

GRI Standard 303-1 is relevant for this question.
