| **Question:** | CEO-to-Employee Pay Ratio |

**Include Modeled Scores :** Yes

**CEO-to-Employee Pay Ratio**

## Question

Does the company track the ratio of the median or mean employee compensation or the total annual compensation of the CEO?

## Rationale

In the aftermath of the global financial crisis, many countries have implemented or are planning to implement reforms regarding the transparency of executive compensation. Transparency is vital to restore trust among shareholders, employees, customers and other stakeholders, and hence to improve corporate reputation. Companies that are taking a proactive approach to align their reporting with this global trend and improve disclosure about executive compensation will be in a better position to fend off criticisms than those that are not.

In addition to complying with new regulations, transparent reporting on CEO compensation and the mean or median compensation of other employees provides a basis for understanding the "pay gap" and addresses concerns from investors and stakeholders about whether or not executive compensation is justified.

In this question, we assess whether companies (including non-US based companies) are able to disclose this information. The Dodd-Frank Wall Street Reform and Consumer Protection Act (Pub.L. 111-203, H.R. 4173) is a federal statute in the United States that was signed into law by President Barack Obama on July 21, 2010. The Dodd-Frank Act clearly states that, in terms of CEO compensation disclosure, a company will be obliged to disclose to the shareholders: the median of the annual total compensation of all employees of the issuer, except the chief executive officer (or any equivalent position), the annual total compensation of the chief executive officer, or any equivalent position, and the ratio of the amount of the medium of the annual total with the total CEO compensation.

▼ Additional Question Guidance & Information Display

**Key Definitions**

**Salary:** It is defined here as the total annual compensation including all bonuses but excluding pension benefits and fringe benefits.

**Total annual compensation:** It is defined here as the total compensation including all bonuses but excluding pension benefits and fringe benefits.

**Median of the total annual compensation of all employees:** It is defined according to the general mathematical definition of median: the median of a sequence is the middle number when sorting all numbers from low to high. This is different from the mean of the total annual compensation of all employees since the mean of a sequence of numbers is calculated by adding up all the numbers in a sequence and dividing this total by the number of entries in the sequence. In this question, either the median or the mean may be provided; it is not necessary to provide both.

The ratio should be calculated as the Total CEO Compensation divided by the Median OR Mean employee compensation (i.e. the reported figure should be the multiple of the employee compensation).

**Data Requirements**

While we expect the figure to cover the entirety of a company's global operations, for this question, companies may make **cost-of-living adjustments** to the compensation of employees residing in a jurisdiction different from that of the CEO, provided that these adjustments are applied to *all* such employees included in the calculation, and that these adjustments are explained in the **company comment section,** and the raw, unadjusted data is also provided in the company comment section.

**Disclosure requirements for partially public question**. Additional credit will be granted for relevant publicly available evidence covering one of the following aspects of this question:

- Annual compensation of Chief Executive Officer **and** median (mean) annual compensation of all employees except the Chief Executive Officer (or any equivalent position).
- Ratio between the total annual compensation of the Chief Executive Officer and the median (mean) employee compensation.

**Data View**

**No information was found in the public domain.**

**Questionnaire**

Please provide the annual compensation for the Chief Executive Officer and the median of the annual compensation of all other employees as well as the ratio between the two. If you are unable to provide the median, please provide figures for total mean compensation and the ratio using the mean. The currency provided should remain consistent for all figures. Please provide supporting evidence only if this information is available in your **public reporting** or **corporate website.**

1. ○

| CEO Compensation | Total CEO Compensation |
|---|---|
| Please indicate the total annual compensation of the Chief Executive Officer (or any equivalent position):<br>*Total compensation includes fixed and variable compensation as well as all other parts of compensation which are required to be included in total remuneration reporting according to national accounting standards* | |

| Employee Compensation | Median Employee Compensation | Mean Employee Compensation |
|---|---|---|
| Please indicate either median or mean annual compensation of all employees, except the Chief Executive Officer (or any equivalent position): | | |

**The ratio between the total annual compensation of the Chief Executive Officer and the mean or median employee compensation:**

*CEO compensation divided by the mean or median employee compensation*

The currency used in the table:

2. ○

We do not track the ratio of the median or mean employee compensation or the total annual compensation of the Chief Executive Officer

3. ○

Not applicable. Please provide explanations in the comment box below.

4. ○

Not known
