# Grupo Bimbo, S.A.B. de C.V. | ESG Scores Raw Data

BMV:BIMBO A (MI KEY: 4276592; SPCIQ KEY: 877906; TCUID: 53231)

**Additional Disclosure**

**Year:** Methodology Year: 2020
**Question:** Government Ownership
**Include Modeled Scores :** Yes

**Government Ownership**

## Question

Does the company report whether governmental institutions own more than 5% of the total voting rights of the company?

## Rationale

As corporate governance systems aim to ensure that a company is managed in the interests of its shareholders, in this question we assess if a government has voting rights of more than 5% and has golden shares at the company. Academic research (e.g. Goldeng et. al., 2008 or Chen et. al., 2017) suggests that companies without government ownership perform better than companies with government ownership.

| Performance Summary | |
|---|---|
| **Question Level Company Performance** | 100 |
| **Question Weight** | 8 |
| **Year-on-Year Change** | 0 |
| **Industry Average Score** | 68 |
| **Industry Highest Score** | 100 |

*The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.*

### Additional Question Guidance & Information Display

#### Key Definitions

**Government Ownership:** For the definition of government institutions and ownership, we adopt the Organization for Economic Co-operation and Development (OECD) definition (2005): "Enterprises where the state has significant control through full, majority, or significant minority ownership. In this definition we include state owned enterprises (SOEs) which are owned by the central or federal government, as well as SOEs owned by regional and local governments."

This definition **includes**: Government pension funds, state asset management funds, development banks (federal and local) and sovereign wealth funds.

**Golden Shares for Governments:** A type of share that gives its shareholder veto power over changes to the company's charter. A golden share holds special voting rights, giving its holder the ability to block another shareholder from taking more than a ratio of ordinary shares.

#### Data requirements

**Government ownership requirements:**

Holding companies that own stakes higher than 5% in other companies, and in turn are majority owned by a government or governmental institutions should be reported in this question. For example, a holding company (Company A) is 70% government owned. Company A owns 40% of the voting rights in Company B. Company B should report 40% government ownership in this question.

**Public disclosure requirements:**

- Total percentage of government ownership (sum of % of individual governmental institutions owning more than 5% of voting rights) or disclosure of all individual governmental institutions owning more than 5% of voting rights.
- Golden shares for governmental institutions (only if the corresponding option is marked).
