Non-Executive Chairperson/ Lead Director

Question

Is the board of directors/supervisory board headed by a non-executive and independent chairperson and/or an independent lead director?

Rationale

International consensus favors the separation of the roles of chairman and CEO. If the board of directors opts to appoint one person fulfilling both roles, it has to build in the necessary checks and balances to avoid a potential abuse of power. Companies headed by a joint chairman/CEO are expected to explain their reasons for this structure, have appointed a "lead independent director," and should provide a statement about the lead director's responsibilities.

Key Definitions

If the company has an **independent chairman**, the number of calendar years this approach has been in place should be indicated in the box following the first statement.

Independent lead director: this role exists to provide leadership to the board in those instances in which the joint roles of Chairman and CEO could potentially be in conflict. Fundamentally, the role exists to ensure that the board operates independently of management and that directors have independent leadership at the board level. If the company has chosen either of the two options indicating that it has an independent lead director, the name of this director should be provided in the comment box.

Independent directors: are non-executive directors that are independent by meeting at least 4 of the 9 criteria (of which at least 2 of the 3 first criteria) listed below:

1. The director must not have been employed by the company in an executive capacity within the last five years.
2. The director must not accept or have a "Family Member who accepts any payments from the company or any parent or subsidiary of the company in excess of $60,000 during the current fiscal year or any of the past three fiscal years", other than those permitted by SEC Rule 4200 Definitions.
3. The director must not be a "Family Member of an individual who is, or during the past three years was employed by the company or by any parent or subsidiary of the company as an executive officer."
4. The director must not be (and must not be affiliated with a company that is) an adviser or consultant to the company or a member of the company's senior management.
5. The director must not be affiliated with a significant customer or supplier of the company.
6. The director must have no personal services contract(s) with the company or a member of the company's senior management.
7. The director must not be affiliated with a not-for-profit entity that receives significant contributions from the company.
8. The director must not have been a partner or employee of the company's outside auditor during the past three years.
9. The director must not have any other conflict of interest that the board itself determines to mean they cannot be considered independent.
