Key Definitions

Please note that multiple options might be valid for some employees, so the sum of all options doesn't need to add up to 100%.

Management by objectives: Refers to a process in which employees have pre-defined and measurable goals that are set on at least a yearly basis together with their line manager and systematically followed up on.

Multidimensional performance appraisal: Refers to a system in which the employee's performance is formally evaluated not just by their direct line manager, but also by their peers, direct reports, and other employees, providing what is referred to as a "360 degree" view of the employee's performance.

A formal comparative ranking: Refers to a system in which employees are systematically graded relative to their peers in the same group (for example within the team performing a particular function).
