Animal Welfare Disclosure

Question

Does the company have programs on animal welfare?

Rationale

In the past decade, the importance of animal welfare has been increasingly recognized in commercial livestock operations. Governments, academic institutions, and animal welfare professionals are addressing animal welfare at different points in the agricultural supply chain, while consumers demand higher standards for food safety and animal welfare. Businesses that address or improve animal welfare are likely to win or retain a competitive advantage in the global marketplace by:

•reducing costs due to reduced animal stress and other welfare benefits, which can lead to increased productivity;

•realizing growing market opportunities for food produced in animal welfare-credential systems; and/or

•becoming the producer of choice for retailers and consumers concerned with animal health and welfare, food safety and quality, human health, and the environment.

Thus far, a common global standard has not emerged. However, there are various regional and global initiatives to provide guidance on acceptable animal welfare practices.

We seek to ascertain animal welfare strategy and performance by assessing the certification of supplies and production, or, in the absence of certifications, by assessing the applied animal welfare standards.

Performance Summary

Question Level Company Performance	25
Question Weight	15
Year-on-Year Change	0
Industry Average Score	15
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Audits of its own animal production operations, including disclosure from its suppliers	-
Other animal welfare-related data or commitments	YES

Questionnaire

Does your company disclose certain data and objectives related to animal welfare? This information can relate to your own operations or commitments from your suppliers. Please provide supporting evidence from your public reporting. **If your company does not produce or sell animals or animal products, please select "not applicable."**

1. ◉
   Yes, we disclose the following:
   1. ☐
      We disclose the application of antibiotics and our commitment to minimize the routine application of antibiotics for prophylactic purposes in our animal production operations, or we publicly request such disclosure and commitment from our suppliers.
   2. ☐
      We disclose our commitment not to use genetically modified or cloned animals or we publicly request such a commitment from our suppliers.
   3. ☐
      We disclose our commitment not to apply growth-promoting substances, such as hormones, to animals or request such a commitment from our suppliers.
   4. ☐
      We disclose that we audit our own animal production operations (externally or by internal means at least once every three years) or request such a disclosure from our suppliers.
   5. ☑
      We disclose other animal welfare-related data or commitments, such as a commitment not to use gestation stalls or a pledge to only produce cage-free eggs.
2. ○
   We do not publicly report on this.
3. ○
   Not applicable. Please provide explanations in the comment box below.
4. ○
   Not known
