Question: Exposure of Suppliers to Water Risks
Include Modeled Scores : Yes

Exposure of Suppliers to Water Risks

Question

Does the company systematically track and map the exposure of its suppliers to water-related risks with a comprehensive water tool taking into account local physical water risks?

Rationale

Understanding water-related risks is not only important for companies' own operations, but also for those of their suppliers. With this question, we assess if companies have analyzed the exposure of tier 1 suppliers to water-related risks and how this exposure has been determined.

Performance Summary	
Question Level Company Performance	100
Question Weight	15
Year-on-Year Change	100
Industry Average Score	17
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Key Definitions

Critical suppliers: are defined by us as suppliers goods, materials, services (including intellectual property (IP) / patents) have a significant impact on the competitive advantage, market success or survival of the company. Critical suppliers include high-volume suppliers, suppliers of critical components and non-substitutable suppliers.

Tier 1 suppliers: refers to suppliers that directly supply goods, materials or services (including intellectual property (IP) / patents) to the company.

Data Requirements

Supporting evidence should evidence of tools or databases used to measure supply chain water risks, water risk assessments, supplier audits or assessments that specifically cover water risks.
General supply chain assessments, audits or certifications that do not clearly show evidence that water was included are not acceptable as supporting evidence..

Supporting evidence:

- The document(s) you attached will be used to verify your response.
- The supporting documents do not need to be available in the public domain.
- If a question text field is available, a comprehensive answer in that field can be accepted instead of a supporting document.
- Any response that cannot be verified in the attached document(s) or via the information provided in the related question text field (if available) will not be accepted.
