Employee Turnover Rate

Question

Does the company track its employee turnover rate?

Rationale

People are one of the main drivers of corporate growth and play an essential role in the successful execution of companies' strategies. This question will assess total and voluntary turnover rates. Total turnover rates may fluctuate and reflect industry trends or economic cycles, while voluntary turnover rates can evaluate a company's ability to retain its employees. Voluntary turnover rates may reflect high levels of uncertainty or dissatisfaction among employees or structural organizational changes. A high turnover rate may impact employee productivity and lead to increased costs due to higher expenses for employee recruitment. Finally, it is important to evaluate turnover patterns by age, gender or other employee groups as these can indicate incompatibility or potential inequity in the workplace.

Performance Summary	
Question Level Company Performance	67
Question Weight	10
Year-on-Year Change	1
Industry Average Score	23
Industry Highest Score	90

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Key Definitions

Total employee turnover: Refers to the proportion of employees who leave an organization over a set period — often a year) —as a percentage of the total employees. The figure should be calculated using the total employees at the end of the latest reporting year. The total employee turnover rate should be the sum of the voluntary and involuntary employee turnover rates.

Voluntary employee turnover: Refers to the proportion of employees who choose to leave an organization (e.g., resignation, retirement, early retirement, etc.) over a set period —often a year —as a percentage of the total employees. The figure should be calculated using the total number of employees at the end of the latest reporting year.

Data Requirements

- If the company does not have a lot of full-time equivalents (FTEs) because they outsource their activities to contractors, then contractors are to be considered employees.
- If the company's definition of the turnover rates does not match our definition, mark **"The question is not applicable to the company".**

Data Breakdown:

- We do not expect companies to break down the data by all the categories mentioned in the question, but full points will be granted for having a breakdown for at least two categories. The purpose of this section is to assess whether companies can track these metrics to evaluate and ensure the fair treatment of all employees.
- In Europe, according to **Article 9 of the GDPR**, it is prohibited to process personal data revealing racial or ethnic origin, except if the data subject has given explicit consent to the processing of this personal data, and provided this process is not prohibited by national law. Other exemptions exist, such as reasons of substantial public interest, which may include statistical research purposes for the equality of opportunity and treatment. We therefore expect companies to report on only two different categories to not penalize companies that do not report data breakdown on race.
- For this section, companies can attach either private or public evidence and we expect to see the specific quantitative data broken down by these categories.
- Options should only be ticked if the information on either of the KPIs in the table (either total employee turnover rate or voluntary employee turnover rate) is reported.

Please note:

- If you have **25 or less FTEs** in the organization, then please mark the **entire criterion** with **"The question is not applicable to the company".**
- If you have **26-100 FTEs**, please answer **"The question is not applicable to the company".**

Disclosure Requirements

Disclosure requirements: Additional credit will be granted for relevant publicly available evidence covering the following aspects of this question, for at least the most recent reported year.

- Total employee turnover rate
- Voluntary employee turnover rate

Data View

QUESTION LEVEL INPUT	COMPANY ANSWER
Company's Employee Turnover Rate	Applicable
Total annual turnover rate (2022)	17
Total annual turnover rate (2023)	17
Total annual turnover rate (2024)	16
Total annual turnover rate (2025)	15
Total turnover data is publicly available	YES
