OHS Policy

Question

Does the company have a policy on Occupational Health & Safety (OHS) and is it available publicly?

Rationale

The purpose of this question is to identify companies that have an active commitment to occupational health and safety (OHS) in line with the most relevant international standards. The policy needs to be company-specific with a company-wide commitment and not just for a single site, business unit, or project.

The OHS policy should cover a set of commitments that capture the long-term direction of the organization in terms of health and safety. It sets the company's approach to health and safety and clearly establishes what the company's expectations toward employees and other interested parties are.

The OHS policy provides an overall commitment and a necessary framework for the organization to set its objectives and take action to achieve the intended outcomes of the OHS management system.

The commitments included in the policy are reflected in a company's processes companies establish to ensure a robust, credible and reliable OHS management system. Therefore, an OHS commitment is necessary for building further measures.

The OHS policy should set the direction for effective health and safety management. Board members need to establish a health and safety policy that is much more than a document – it should be an integral part of the organization's culture, values and performance standards.

Performance Summary	
Question Level Company Performance	78
Question Weight	12
Year-on-Year Change	24
Industry Average Score	35
Industry Highest Score	100

The question layout and the company's verified information is provided below. No information is shown if the company did not provide any information or if it opted out of sharing non-public information.

Additional Question Guidance & Information Display

Data Requirements

This question assesses policies and commitments, therefore the information provided must be in the context of the company's OHS policies and commitments, not on actual OHS measures.

1. Commitment to establish targets for improving OHS performance metrics

- Actual OHS targets/metrics themselves are not acceptable.

2. Endorsement by the top management

- Whoever signs the policy and in which capacity needs to be clear. If the CEO signs the policy, then it will be considered as endorsement by "Executive management" unless it is clearly specified that they signed the policy as a BOD representative.

Please note: If you have **25 or fewer full-time equivalents** in your organization, **please mark "The question is not applicable to the company".**

Disclosure Requirements

This question requires supporting evidence from the public domain. The information provided must be included in your public reporting (e.g., annual report, sustainability report, integrated report, company publications) or corporate website.
